

MONDAY MORNING, MARCH 25, 1929.

LIBERTY UNDER THE LAW

TRUE INDUSTRIAL FREEDOM

DAILY, FIVE CENTS

SUNDAY, TEN CENTS

FORM DEAD MOUNTING

Forty-six Toll in South

Deadly Torn by Floods and Tornadoes Take Sack of Damage

Streams Continue to Rise in Tennessee and Kentucky

CHATTANOOGA (Ga.) March 24. (P)—Deadly torn by floods and tornadoes took a heavy toll of life and property in the South today. The great-est loss was in Tennessee, where a warm spring-weather storm still raged in the night.

Streams and floods of Friday morning caused at least forty deaths in six States. The great-est loss was in Tennessee, where a warm spring-weather storm still raged in the night.

Will Rogers Remarks:

NEW YORK, March 24. (To the Editor of The Times.) Mr. Hoover is not going to use the Mayflower. After being all fall on these big battleships, getting on the Mayflower would be kinder like slumming. Besides, Mr. Hoover in all his travels has had to ride on too many boats to get somewhere without wanting to get on to one to go nowhere purposely. Mr. Coolidge used to get a kick out of taking those Senators on it and watching 'em get sick; I guess they will be selling it now, and somebody will buy it for a rum runner.

They ought to keep it to send our delegations to disarmament conferences on, for in two more conferences we will have to borrow a boat to get there.

Yours, WILL.

JAMUEL REA SUCCEDES

Ex-Pennsylvania Chief Expires

Heart Attack Following on Influenza Fatal to Tunnel Builder

Railroad Man Rose From Rodman to President of Great System

PHILADELPHIA, March 24. (P)—Jamuel Rea, former president of the Pennsylvania Railroad, died today at his home "Gladwyne" near Ardmore, a suburb. He was 73 years of age.

Mr. Rea was stricken several weeks ago with influenza which resulted in a heart attack. He rallied from time to time but complications set in and made his case hopeless.

Mr. Rea retired as president of the Pennsylvania under the company's pension system when he reached his seventy-third year in September, 1926. However, he remained a director in the company and continued an active life in civic affairs and about Philadelphia. He lived to a greater age than any of his predecessors in the presidency of the Pennsylvania.

Mr. Rea leaves his widow and one daughter, Mrs. Ruth Rea Jun-ki.

The funeral will be conducted Tuesday at 4 p.m. from the Presbyterian Church, Bryn Mawr, Pa.

BUILT HUDSON TUBES
Outstanding in the career of Mr. Rea was the construction of the Pennsylvania railroad tubes beneath the Hudson and East rivers and the rearing of the magnificent Pennsylvania Railroad Station in New York.

PARIS BOWS IN SORROW

Thousands Pass Foch's Bier

From Early Morning Until Late Night 100,000 March in Tribute

Hero Warrior's Body Taken Under Arc de Triomphe; Crush Hurts Scores

PARIS, March 24. (P)—His last great army, made of women and children, outnumbering soldiers, marched more than 100,000 strong today past the body of Marshal Ferdinand Foch enshrined under Napoleon's Arc de Triomphe beside the body of the Unknown Soldier who symbolizes the universal sacrifice of the World War.

It was the greatest outpouring toward one spot that demonstrates Paris has ever seen and it was early quiet because of the dead of a decade ago summoned up by the passing of their illustrious chief. From 9 in the morning until almost midnight the steady silent stream of humanity passed under the bright sunlight of the day and the full moon of the spring night.

SCORES KILLED IN CRUSH
The generalissimo of the Allied armies was the first illustrious Frenchman to lay in state under the arch built by Napoleon to commemorate the military victories of France since Victor Hugo was buried. So many were the pilgrims to do him honor, that thousands were unable to reach the goal before midnight. One man died and scores were injured in the crush.

Early tonight the whole top rim of the arch was illuminated in the red, white and blue of the tricolor to whose glory Marshal Foch gave his entire life. Four torches shed their light on the coffin resting on the most famous of French artillery weapons, a seventy-five.

On the flag-draped bier lay the marshal's red and gold embroidered kepi, his sword and his blue military cap. At the head of the coffin was his fanion, covered with crepe, around which were tied the tricolor ribbon of France and the Stars and Stripes of the United States. To America also was given the extraordinary honor of having two of her soldiers on guard.

GUARD FOR BIER
At each corner an officer of his headquarters staff stood guard with unheated sabers. Two Boy Scouts and two former combatants and two priests who stood behind the coffin. Around the arch and in the center of the boulevard were sentry boxes from which twelve wide avenues radiate. Republican guards stood at short intervals beside their mounts.

The public approached from the south and passed the tomb of the Unknown Soldier. The coffin was carried away to the north, none being permitted under the arch proper except the guard.

There were no rank and no precedence recognized among the pilgrims. The representatives of the army and navy and those who bear high rank in government, army and navy, were all equal in the crowd. The national funeral services, but today one man was the peer of another in his hom-

Only one was the circle of guards opened to permit an automobile to enter. The car, which was when the marshal's brother, the aged and ailing Father Germain Foch, supported by two of his colleagues in the Jaurès order, came to salute the soldier whose name is immortal and the other soldier whose name was lost when he fell on the field of honor.

JAM IN AFTERNOON
So great was the crush of persons swarming up the twelve wide avenues leading into the Jaurès order, that the best efforts of the police and Republican Guard were unable to prevent harm from coming to some of them. In the late afternoon when the crowd was at its greatest there were many who fainted or were pushed over. An aged man was killed and more than thirty other persons were taken to hospitals.

Paris, in her long history of victories, fetes and revolutions, has seen as many persons on the streets but never so many concentrating upon one spot. The huge throng was silent, as though finding in the death

FOCH RIVAL DIES IN OBSCURITY

General Favored by Left Government as War Chief Expires

PARIS, March 24. (P)—Gen. Maurice Emmanuel, a rival of Marshal Foch, died today at his home in the Bois de Boulogne. He was 78 years of age.

General Emmanuel was a member of the Left government of 1917, and was chief of the French army in the Balkans during the war.

He was a close friend of Marshal Foch and was one of the few who remained in the French army after the war.

Too Much May be Worse Than None at All

THE BEAUTIFUL DREAM THAT WOULD TURN INTO—
—AN UGLY NIGHTMARE.

—[From the Chicago Tribune]

GUARDED SHIP CREW LANDS IN FLIGHT TO BRAZIL

Men of British Schooner Sunk by Rum Patrol Taken Ashore at New Orleans Manacled

NEW ORLEANS, March 24. (P)—The crew of the British schooner Tyn Alone, sunk by Coast Guard patrol boat's gunfire in the Gulf of Mexico 100 miles off the Louisiana shore, were landed in New Orleans today. The men were manacled and under heavy guard when brought ashore and no outsiders were permitted to talk to them.

Officials declined to give out information until after they had interviewed the crew of the schooner. The crew, which included a captain, a first mate, a second mate, a third mate, a fourth mate, a fifth mate, a sixth mate, a seventh mate, an eighth mate, a ninth mate, a tenth mate, an eleventh mate, HAIR ROOTS Never DIE!

Who have thinning hair or who are chaps have been told that because your hair is dead you can never enjoy a healthy scalp. This is untrue, as the hair grows out of the scalp and the hair comes out of the scalp. These minute hair production become inactive and do not grow when the scalp is lacking in richness and stimulation.

Growth of Hair is Possible
This treatment removes all scalp dandruff and falling hair, and growth of new hair visible on the scalp within a few weeks. With this distinctive proven method available you can waste your time and money on treatments and remedies. Now you can pair your personal appearance by making your hair grow again. The Thomas' hair treatment is the only one that grows all scalp disorders and re-grow hair without charge or obligation. Hair Specialists—40 Offices in U.S. and Canada.

CORINTH
by Stetson

The desired touch of formality — for EASTER

Strict correctness in dress requires a rather formal appearance for this occasion. Stetson designed the CORINTH with the touch of formality that is desirable in your Easter hat. It has the higher, tapering crown, and the smartly curled brim... the approved English effect. You will recognize the quiet authority of Stetson stylists in its dignified proportions.

BYRD GEOLOGIST RELATES FIGHT WITH POLAR GALE Trio Stranded When Long Battle in Bitter Cold Fails to Save Plane From Wind

(Copyright, 1929, by the Los Angeles Times, New York Times and St. Louis Post-Dispatch. All rights for publication reserved throughout the world.)
LITTLE AMERICA (Antarctica) March 24. (Exclusive)—The following is the diary of Laurence M. Gould, geologist and geographer of the Byrd Antarctic expedition, written in his tent in the Rockefeller Mountains during the days of the storm which culminated in the blowing away and wrecking of the airplane.

This isolated him and his companions on one of the peaks to help hold the plane. Bert Balchen and Harold Gatty continued shoreward. Only a hand-ful of men remained. They were rescued, however, by Commander Byrd after a hazardous flight.

March 7. A fairly good morning. Four dog teams are hurrying getting the gear ready to start laying bases for this fall. They left the base this afternoon.

—Vaughan with Goodale, Crockett, Bursey with their teams. Gansahl, navigating and Peter (Carl Petersen) with the radio.

SKY CLEAR AT START
Haines said the weather was O.K. For our mountain trip Balchen had gone out in the morning with Brashen to set flag markers across the bay ice for the dog teams. He returned about noon. I told him to get ready for the flight. June, too, as radio man.

We took off with a fairly clear and bright sky in the direction of our mountains, almost due east. A high head wind made flying rather slow. We were in the air two hours and ten minutes. We landed about a mile from the base of one of the highest peaks and established camp. Another great gust—the plane lifted and quivered. We must get a line through the wind to hold it.

March 8. Out early this morning. We went out and measured—and measured a base line and located all the peaks in this part of the group.

The wind was blowing hard and it was cold, so we hurried into camp where we had to stay until later afternoon. Then we three went to the mountain nearest and climbed part way up its face. Granite, all granite.

March 9. When I woke up at 8:30 and prepared to get up I found it was snowing and blowing pretty hard—too hard to do any work. We stayed in bed until about 11. Balchen got up and so then did I. We prepared breakfast and fed June in bed.

WIND GROWS STRONG
The wind was growing stronger. Suddenly the two tent guys that had been fastened to the airplane skis let go. We thought they had broken. Balchen looked out of the tent.

"The plane has moved," he shouted. "We both hurried out and started shoveling frantically. The wind was growing stronger and the plane started to move again. I jumped

Three times an unusually heavy gust of wind hit the plane. It seemed the plane would have overturned. We dared not let go and we were both getting colder. Bert was securing the wing and working like a mad man.

COLD INTENSE
The driving snow in the teeth of the awful wind was worse than needles. My beard and face became encrusted and I lost all sensation. I thought my wrists had become numb and I was unable to move. I was turning to look at the plane when June and I had been holding. Still the wind blew. I had ski boots on and positively could not stand against it. When I tried to go windward I had to crawl, then I would pick up a piece of snow and then be blown back to where it was to be piled.

How long did we work? It seemed hours and may, I have felt some critical conditions but now as the time looked so terrifying as this. If we lost the plane it meant a walk of about 10 miles and every-thing was fairly saturated with snow. We cleaned them out as best we could and turned in.

With early morning the wind was on the increase. Our tent was cracking and snapping—sounded like a broadside of muzzies. One cannot imagine the din inside even a small tent in such a gale. He must experience it.

We turned out to watch the plane. It quivered and shook like a thing alive, ready to take flight. But the guys held and of course we shoveled more snow.

CAMP HEARS MESSAGE
March 10. Not so bad today. The wind has lulled and by afternoon the clouds lifted enough to give me a shot at the sun to determine our location. A bright sunset and some stars. I set up my transit at 10:30 to get some stars. Clouded over soon. Joined Bert and June—went to bed.

March 11. Awakened at 3:30 by the din of a slapping tent and a terrific wind. Again the plane was in grave danger. I dressed and went out to look and came back to reassure Bert and Harold that it would hold.

There seemed nothing more we could do. I removed our few parkas and bags from the plane so we should have them in case it was blown away. Three more times we got up and looked things over and returned to the warmth of the old reindeer sleeping bags.

At 10:30 I got up and dressed and

LOVE MURDERS PRESENTED

Dealers Sell Jealous Women
Blank Cartridges When
Bent on Crime

PARIS, March 24. (AP)—Blank cartridges, sold to jealous women, save courts lots of trouble.

A Bordeaux arms merchant initiated the idea several months ago and since then a number of dealers have averted tragedies by good guessing on women customers.

Auguste Gray, a Paris dealer, is the latest gun-selling psychologist. When Madame Victoire Fauconne bought a revolver and asked him to load it he noted her excitement and used blank cartridges. Two days later she fired at Jean Paris. She thought her marksman had been to the police. Gray explained how he balked at a blood-thirsty woman without interfering with business.

was followed by Bert and Harold. The wind didn't seem so strong now. We estimated it at about thirty-five miles, but it was snowing heavily, so there was no seeing.

We had some breakfast and Harold tried and with success to get the emergency radio engine going. But failed to get a response from camp. At 4 p.m. he tried again and this time successfully. They had heard his message, so had not been especially worried.

GET READY TO RETURN
Haines said the weather was favorable there for a landing. It snowed there but the wind was blowing down a little. The radio schedule was arranged for 8 p.m. We intended to fly back tonight if the weather had cleared. We are all anxious to get away from here before a blow comes on.

Now as I write at 10:30, it is finally dead calm. A little snow continues to fall, the barometer is fairly high and steady and the temperature has fallen. It should give us good conditions to fly back in the morning. Little America will look good to us all.

March 12. The flapping of the tent awakened me at 2:30. It sounded ominous so I got dressed and unlocked the foodstuffs from the plane. The barometer had dropped a bit so it looked bad.

The sun appeared for a few minutes around 3:30 and I was able to check the compass—42 deg. easterly. I looked so good that I decided I would wait until 5 and wait.

June and Balchen and begin to get ready to take off, which we hoped to be able to do about 7:30 or 8. The wind had lulled a bit, but the sun was soon hidden and the visibility was bad. I went back to bed.

At 4:30 and at 5:45 awakened Harold so he could get ready for a radio schedule with the base at 7 p.m. We all got up while Harold was trying, but without success. I was the last to get up. I had breakfast and the barometer continued to fall a little. The wind is increasing from the north. We can't sit tight and hope that things will change soon. At 3:30 p.m. the barometer has fallen to 28.7 and still tends downward. It is about a dead calm with great flakes of fluffy snow squall falling. The breezes come from the north, west and again the south, just mild puffs of wind and don't disturb the light snow.

WORK COMPLETED
My hope now is that we are in the center of a low and may be spared such terrible winds as we have had before under similar circumstances.

At 9 p.m. the barometer is still falling, now 28.6, but still there is a dead calm except for a gentle breeze from the south. No snow falling now. I am more strong now in my hope and opinion that this low pressure means that we are in or near the center of a low and may be spared another onslaught of wind.

March 13. Broad calm this morning with overcast sky. No hope of flying so we decided to risk the weather and climb the mountains. It was a great day. We effected our triangulation, locating all the peaks and their elevations. We saw land to the south in Marion Byrd Land.

Although a grand and successful day, being calm all day and the barometer has changed but little, rising just a bit. Sky is clearing now and it is growing much colder. Both good omens of better weather tomorrow. I hope we shall be able to take off in the morning. I am really ready and content to go back now, for we have today completed all the work I hoped to do here, thanks particularly to the help of Bert Balchen, whose sketches are of great assistance in expediting the work of triangulation. A great day this.

WIND RISES AGAIN
March 14. When I awakened at 5 the sun was shining. There were few clouds. It looked like our day to fly home had come. I called Harold and Bert and we started getting the plane ready, shoveling away the snow from under the skis and from under the fuselage. Had the torch oil warming over another gasoline torch. But it was no use. Soon it began to cloud up, little puffs of wind from the north bringing moderately large clouds of the gray white that has fallen within the last two or three days.

securing the plane, continued at it all morning. The wind now averages thirty-five miles an hour with gusts up to sixty, and the barometer continues to drop slowly. A dismal outlook.

Reports from the base camp 133 miles to the westward are equally dismal. There has really not been a time since we arrived here that conditions were favorable to take off.

The winter is near and each day of delay adds to the uncertainty of our position. Surely there will be a calm, clear day soon.

Mr. Gould's diary will be concluded tomorrow.—(Ed.)

TSINAN AFFAIR PACT REACHED

Japanese and Nationalist
Chinese Agree

Formal Signature May be
Expected Soon

Other Incidents Probably
Will be Settled

SHANGHAI, March 24. (AP)—Japanese Minister Kenkichi Yoshizawa and Nationalist Foreign Minister C. T. Wang have reached an agreement on the long-standing Tsinan incident which grew out of the civil war in the north after Japan had occupied Shantung Province.

After a six-hour conference with the Japanese Minister today, Dr. Wang informed newspaper men that they reached an agreement yesterday afternoon which was approved and initiated today. A formal session will occur at Nanking in a few days which he is confident will see the signature of the agreement.

With this matter out of the way, Dr. Wang sees no difficulty in the way of settling other points at issue, namely the Nanking and Hankow incidents.

It is reported by reliable Chinese sources that the agreement provides that immediately on signature the Japanese forces in Shantung shall be withdrawn, that both countries waive the question of responsibility for the clash at Tsinan, that a joint commission be appointed with restricted powers to investigate the incident and that each country make sympathetic grants to the nationals of the other for the damage suffered during the incident.

**JAPANESE GIVEN
REPORT BY MINISTER**

TOKIO, March 24. (AP)—Japanese Minister Kenkichi Yoshizawa today notified his government of provisional signature of a Tsinan settlement with the Nationalist government and said that he expected formal signature will be completed by the end of the month.

ZEPPELIN IN AIR FOR TOUR OF EUROPE

Giant Airship Takes Off
on Scheduled 5000-Mile
Trip of Mediterranean

FRIEDRICHSHAFEN (Germany), March 25.—(Monday) (AP)—The dirigible Graf Zeppelin started its Mediterranean flight at 12:54 a.m. today.

Hugo Eckener laid the course of his giant airship over Lake Constance in the direction of Basel, Switzerland, first landmark on the 5000-mile jaunt which is to occupy four days of air voyaging without a stop.

Nearly all countries along the northeastern and eastern shores of the Mediterranean are to be visited and several Balkan and Central European nations will be included in the homeward flight.

The huge ship, outlined in the moonlight, could be seen by the watchers at the field for a long time after the take-off.

SHOCK KILLS WOMAN
SAN JOSE, March 24. (AP)—Shortly after being roused from her bed at midnight by a party of motorists seeking aid after their car had overturned in a creek, Mrs. C. L. Kingsley, 65 years of age, wife of a Los Gatos storekeeper, died of a heart attack, evidently induced by excitement. None of the motorists was seriously injured.

Making Satan More
Awful Looking

NYED (Sweden) March 24. (AP)—A bill submitted by a church interior painter nearly a hundred years ago, now in the archives of the Nyed parish church, itemizes the services rendered as follows: "Altered the Ten Commandments and repaired the sixth."

At 4 p.m. three hours before the polls closed, the official news agency estimated that from 80 to 90 per cent of the registered voters had exercised their franchise.

ITALY BALLOTS
FOR PICKED MENNo Choice in 400 Candidates
for Parliament GivenEnthusiasm High as Nearly
All Go to PollsMany Priests and Monks
Vote as Crowds Cheer

ROME, March 24. (AP)—Fascist Italy, under the domination and example of Premier Mussolini, today went to the polls to cast a single vote of approbation for the list of 400 candidates for the new Chamber of Deputies selected by the Grand Council of the party. They had no other choice, except to reject the list in its entirety. There were no other candidates.

Each voter was given two ballots, one reading "yes" and one reading "no." He went into a booth where he deposited the unwanted one in a slot and placed the other in an envelope which he brought out and deposited in an urn in front of the official teller. The envelopes were so made that until they are opened the vote cannot be learned.

Premier Mussolini when he voted himself at 8 a.m. at a humble polling-place in downtown Rome came in for good-natured chaffing by Secretary Augusto Turati of the Fascist party, who was taller in that district. "Let us hope it was a (yes) Excellency," he said with a grin. The smile of the Premier answered for him.

Although the Pope and the cardinals of the Papal court did not vote because they are citizens of the new state of the Vatican City, priests and monks throughout the kingdom exercised their right of suffrage to an extent never before known in Italy. They were welcomed at the polling-places by the election officials and were greeted by cheers from the crowds.

DIST. ATTY. FITS TO
OPPOSE COMMUTATION

The parole move of Mrs. Louise Peete, convicted in 1921 of the murder of Jacob C. Denon, wealthy mining man, will meet with the unanimous opposition of Los Angeles authorities whose opinion plays a vital part in such matters, it was learned yesterday.

Dist. Atty. Fitts announced that he will oppose any move to parole Mrs. Peete. "It is a matter of general public justice," the District Attorney said. "This woman has served eight years in the State penitentiary, but she was sentenced to life. This is a test as to whether or not a life sentence in this State means a life sentence or just a short term of years."

Under the law, the State Parole Board must inform the District Attorney and the judge who presided over the trial of any person seeking parole before action is taken.

The new SUPER-SERVICE INDIA TIRE...the finest tire made, bar none...carries two separate and distinct guarantees.

The manufacturer guarantees the tire against defects in the material and workmanship during the entire life of the tire.

The distributor guarantees that the tire will run a minimum of TWENTY-FIVE THOUSAND MILES.

The essence of any guarantee lies in its ability to fulfill...in an inherent capacity to perform.

The new INDIA SUPER-SERVICE Tire is the Tiffany of tires...the acme of perfection in tire construction.

It is "custom built"...not a mass production tire.

It is made expressly for those who want...and can afford...the BEST. Naturally it costs more than the average tire.

It was built without any limitation...either as to quality of material or cost of construction.

It will out-run and out-wear any other tire on the market. Rigid tests have demonstrated that it is capable of greater mileage than you will ever need...30,000, 40,000, 50,000 miles. It should last as long as you keep your car.

Every SUPER-SERVICE INDIA Tire carries, under the signature and seal of the India Tire & Rubber Co., the Standard Warranty of the Tire Manufacturing Members of the Rubber Institute, Inc., reproduced above.

And...plus this warranty...Nelson & Price, Inc., stand back of the tire with a specific

SOUTH COUNTS FLOOD VICTIMS

Seven Boy Scouts Among Recovered Bodies

Quincy Fears Invasion of Mississippi Waters

Kentucky River Recedes, Leaving Mud Trail

(Continued from First Page)

terday, three sons of M. C. Knight, Barbourville, drowned when their canoe capsized in the swollen Cumberland River this morning, and a 17-year-old boy drowned near Hazard, Ky. A negro was reported to have fallen from a raft and drowned at Florence.

Flood waters in the Kentucky River in the upper reaches of the Tennessee River began to recede today, leaving hundreds of homes and stores afloat with mud, but the Cumberland still was rising. From Burnside, Ky., to Celina, Tenn., on the border the Cumberland slowly poured its muddy waters over the lowlands, inundating both these towns from three to six feet, but had begun to fall from Burnside south.

STORE STOCKS DAMAGED

Rains that amounted almost to clouds today swept the tributaries of the three rivers that rise in the Blue Ridge Mountain chain. In Southern Kentucky, and the waters rushed down the mountain valleys with a force that would have drowned inhabitants had they been in the way of the heavy rains.

Property loss was heavy, thousands of dollars worth of stocks in stores being ruined by mud and hundreds of homes left soaked from the dirty water. Railroad and wire service was halted but in many cases was being resumed today. Trains began moving in the Kentucky River Valley today and Middleboro, where the tributaries of the Tennessee were receding, service was expected to be resumed soon.

ALL GUNK BUT MUD

"All gone but the mud," was the terse description given of the situation at Middleboro, where nearly every able-bodied man was busy shoveling out stores and homes. Streets in all these towns had been from three to six feet deep in muddy water which left a thick coating of silt as it receded.

Barbourville, Burnside and other communities reported estimates of damage from \$100,000 up. In Barbourville sixty families were cared for in public buildings. In all the communities affected many will be unable to return to their homes for a week or more.

The Knight boys at Barbourville, whose ages were 18, 11 and 7 were drowned while trying to gather driftwood in the rising stream.

LOWLANDS AT QUINCY WORRIED

QUINCY (Ill.) March 24. (AP)—Apprehension ran high in the lowlands around Quincy today. On top of reports that levees in all districts were slipping badly after three days of a foot rise since midnight, rumors spread over the region that fearful residents in some sections were plotting to dynamite the dikes farther up.

MISSISSIPPI DEPTHS WATCHED

MEMPHIS (Tenn.) March 24. (AP)—

COLORADO AGAIN STORM-HIT

Blizzard and Gale Lash Southwestern Section; Silverton Isolated for Third Time

DURANGO (Colo.) March 24. (AP)—Winter returned in full fury today to the mountainous area of southwestern Colorado, isolating mining towns and villages and paralyzing traffic and communication systems under the lash of a combined offensive of blizzard, terrific wind and avalanches of snow.

The "Sky City" of Silverton, famous mining site of the old West, buried under two feet of snow, is cut off from the world for the third time this winter. A great slide of snow falling from a precipitous mountain has blocked its sole railroad inlet. The snow slide covers the railroad right of way through rugged Animas Canyon over an area of about 200 feet and is between twenty and forty feet in depth.

THREE-DAY STORM

Silverton has been in the grip of a storm for three days. Many feet of snow fell in mountains surrounding the little town. A huge slide between Silverton and Durango last night tore out power and telephone lines between the "Sky City" and the Sunnyside mine and mill in Durango, one of the largest of the producers in Colorado, is without power. It is estimated it will require four days to replace the power lines to the mine, where more than 300 men are employed.

Communication with the Shenandoah mine near Silverton is cut off and will not be resumed until the storm abates. A large crew of men has been employed there all winter.

Definite information of the volume of water pouring from rain-swollen tributaries still was awaited tonight to determine crest stages along the lower Mississippi River, now bearing its annual spring high-water burden.

At Memphis today the river showed a mark of forty and nine-tenths feet—nearly six feet above the flood stage and a twenty-four-hour rise of four-tenths of a foot. A further rise to a stage of forty-one to forty-two and five-tenths feet was anticipated within the next forty-eight hours.

Calzo, Ill., reported a fall of 1.5 feet to a twenty-four-hour period to a stage of forty-nine feet. Weather Bureau officials pending more definite information as to the amount of water still to be dumped into the main waterway when the tributaries bring down the drain from recent rains over the upper watershed.

Levees were reported holding well all along the lower reaches with bright, summer-like weather, general throughout the Memphis district but with showers predicted.

PROSPECTOR SUICIDE

SACRAMENTO, March 24. (AP)—A man believed to be Robert Faber, a prospector, died here today from a self-inflicted bullet wound in the head. Identification was made by means of a bank passbook and a pawn ticket.

SCOUT SHROUD TO BE UNIFORM

Tennessee Flood Victims Also to Wear Badges

Boys Will be Laid in Graves by Side of Leader

State's Deaths Thirty and Loss \$3,000,000

ROCKWOOD (Tenn.) March 24. (AP)—The seven Boy Scouts of Rockwood who with their scoutmaster met death yesterday in the swirling waters of White Creek will wear their uniforms and badges in death—as they proudly displayed the motto "be prepared" in life.

Although final funeral plans were held in absence today awaiting recovery of the body of Jack Schanck, it already has been agreed upon by parents of the youths that they will lie in death dressed in their khaki uniforms, alongside the body of their scoutmaster, James Wright.

RITES LIKELY TOMORROW

It was considered probable that funeral services will be conducted other body was still missing.

The bodies recovered are those of Ed and Fred Burnitt, Scoutmaster Wright, J. C. Hill, Wren Green and Woodrow Kerr.

This East Tennessee hill country was dotted today with hard-working citizens intent upon mending the havoc wrought yesterday by the roaring torrent. The death list was placed at thirty, with probably others to be added.

PROPERTY DAMAGE GREAT

Police and city authorities here, at Harriman, Webster and in surrounding communities list twenty dead at Harriman, seven Boy Scouts here and three drowned at Webster.

Property damage is estimated at \$3,000,000, with most of it at Harriman and Oakdale, where railroad yards and industrial sections were swept by raging water.

Emery River, normally a rippling stream 150 feet wide, rose with such suddenness that it swept into Oakdale and Harriman before the citizens were aware of their danger. It carried away smaller houses along its banks and reached a stage of between fifty-five and sixty feet. Subsiding with almost the same rapidity with which it rose, the river today was almost wholly within its banks and is expected to be at normal stage tomorrow.

WE ARE CORRECT

An Erroneous Impression Regarding

Purr-Pull Gasoline . . .

PURR-PULL gasoline is a premium fuel for motor cars. Its antiknock, anti-carbon forming high compression qualities definitely place it in this class.

Because it is worth more than common ordinary white gasoline there is an impression that it costs more. This is the impression we wish to correct. Purr-Pull gasoline sells at the same price as ordinary white gasoline. The premium qualities that make it worth more are deliberately put there by the United States Refining Company to make Purr-Pull the outstanding value in the local gasoline market.

Through the use of a new advanced formula, developed in the laboratories of the United States Refining Company, and used exclusively by them, Purr-Pull gasoline has the qualities usually associated in the public mind with that call for a premium price. Remember that this formula is

guaranteed non-pollutious. It contains no lead compounds.

But because Purr-Pull sells for the same price as ordinary white gasoline, its premium qualities mean added savings for the motorists who use it.

Purr-Pull is first and foremost an anti-knock high compression gasoline. No matter how hard the pull, or how far you advance the spark, your engine will not develop pre-ignition carbon knocks when you use Purr-Pull. The same formula that gives Purr-Pull its anti-knock qualities keeps it from forming carbon, makes for quicker starting, eliminates the dilation of crank case oil—and brings you more miles to the gallon.

Purr-Pull improves the performance of any car, new or old—and it costs no more than ordinary everyday gasoline. It is colored a deep, rich purple for easy identification, and can be obtained from hundreds of independent stations in Los Angeles, San Diego and Southern California.

Sold With a Money-Back Guarantee

Purr-Pull is the only gasoline sold with a written money-back guarantee. If it doesn't improve the performance of your car—you get your money back.

★ You can see Radio KFWB every Wednesday at 9 P.M. and hear authentic recollections of world championly boxing contests.

Pressureless Point!

Yet Every Paper Takes Ink Better from a Parker Duofold Pen

Polished iridium-tipped point glides gently over paper. Ink flow starts immediately and continues evenly at any speed with merely the feather-light weight of the pen itself to bring it into action.

Neither pen, nor paper, nor fatigue will cause even a pause when you use a Duofold.

Finger pressure is relieved. No effort. No strain.

This is easy writing such as you may never have enjoyed.

Action so responsive that pen can be made 28% lighter than rubber, (though non-breakable) and still require no weight from your hand.

To please you even more, we offer in the Parker Duofold, five flashing

colors and a new Modern Black-and-Pearl—the latest mode—from which to select.

Then we add a "guarantee for ever against all defects, to make these better features everlasting.

Don't take a lesser pen. See the Duofold at your nearest pen counter today.

See "Geo. S. Parker—DUOFOLD" imprinted on the barrel to be sure you have the genuine.

*To prove Parker Duofold is a pen of life-long perfection, we offer to make good any defect, provided complete pen is sent by the owner direct to the factory with 10c for return postage and insurance.

HIGH LIGHTS IN HISTORY 1297

The Story of the World War 67—The Sinking of the "Lusitania".

by J. CARROLL MANSFIELD

THE BEGINNING OF 1915 WAS MARKED BY INCREASED ACTIVITY ON THE PART OF THE GERMAN SUBMARINES. THE NUMBER OF ALLIED MERCHANTMEN SUNK WITHOUT WARNING STEADILY GREW. THE GERMANS PAYING LITTLE HEED TO PROTESTS AND DECLARING THAT THE U-BOAT WAS A NEW WEAPON NOT TO BE BOUND BY THE OLD RULES RESTRICTING NAVAL WARFARE.

IN FEBRUARY, 1915, WASHINGTON NOTIFIED BERLIN THAT THE UNITED STATES WOULD HOLD THE GERMAN GOVERNMENT STRICTLY ACCOUNTABLE IF AMERICAN SHIPS WERE SUNK OR AMERICAN CITIZENS KILLED BY GERMAN SUBMARINES. THE GERMANS TREATED THIS WARNING AS AN idle threat.

MAY 7, 1915, THE "LUSITANIA," ONE OF THE LARGEST AND FINEST OF THE BRITISH TRANS-ATLANTIC PASSENGER "LINERS," WAS SENT TO THE BOTTOM OFF THE COAST OF IRELAND BY A GERMAN U-BOAT. 1,195 MEN, WOMEN AND CHILDREN BEING DROWNED. AMONG THE VICTIMS WERE 114 AMERICANS.

NEW AMERICANS HAD WISHED THE STATES TO TAKE PART IN THE WAR. BUT THE SINKING OF THE "LUSITANIA" AROUSED THE AMERICAN PEOPLE TO A STERN PROTEST AGAINST THIS FORM OF WARFARE AND TO DEMAND DRESS FROM GERMANY.

PRESIDENT WILSON, THOUGH AT FIRST COURSE, ASKED GERMANY TO STOP ACT. THE REPLY TO HIS FIRST NOTE PROVING UNSATISFACTORY, HE SENT A THIRD NOTE, DEMANDING THAT GERMANY SHOULD STOP SUCH ACT "UNLESS THEY WERE FRIENDLY."

THE GERMANS SAID THEY WERE NOT FRIENDLY, AND FOR A WHILE MORE SUNK SHIPS WITHOUT REMORSE.

TODAY—TALKING WITH THE PRESIDENT

SENATE TO CUT
ORATORY SHORTDecks to be Cleared This
Week for Hardy TrialMembers Anxious to Avoid
Night SessionsPreparing for Impeachment
Proceeds Carefully

SACRAMENTO, March 24. (AP)—The rush to clear all decks of legislative business so as to be ready for the opening of the impeachment trial of Senator Judge George A. Hardy is on today, when members of the Legislature return to the Capitol.

The Senate was warned last week that its business would hold members in night sessions during this week if necessary to complete the calendar of business. Not wishing to be held through night hours, the Senators are planning to cut short their debates on measures of secondary importance.

The Senate has 185 bills on its third or final reading. At least half of these will be ready for passage tomorrow. Others still will be in the hands of the printer for enactment.

ASSEMBLY MAY GRIND ON
The Assembly is not bothered by the forthcoming impeachment proceedings. Its part of this affair ended when it voted to take action against the Los Angeles jurist. It will continue grinding out bills without interruption.

The Assembly starts the week with 185 bills on final reading day.

Five Assemblymen, members of the board of managers handling prosecution of Judge Hardy, have been and probably will continue to be interrupted in their consideration of legislative business during the week.

The burden of proof that Judge Hardy is guilty on four articles of impeachment falls on bill introduced by Walter Little, Harry Bewell, M. I. Cronin, William Hornbly and Clare Woolfson.

New points of law and evidence constantly are coming before the board, decisions must be made as to procedure and conferences between these five men are held frequently.

FEW PRECEDENTS
This is the first time in sixty-seven years that a board of managers has been appointed to handle an impeachment trial, consequently the case at hand has to be planned slowly and carefully for the prosecution is without much precedent.

Further progress in the business of accusing a Superior Court Judge is not to be considered lightly. The managers, realizing this, check and recheck each case.

An important public hearing will be held in the Assembly chamber tomorrow night on a bill introduced by Jerrald Sewell proposing revival of hydraulic mining.

The hearing is expected to attract many representatives from the mining and farming districts. The mining men are in favor of placer operations while farmers have been the practice, saying that the debris resulting therefrom has been ruinous to their lands.

Mother Held
Family Boss

OAKLAND, March 24. (AP)—Asserting that while the father of the family may be the legal head, the mother is the "boss," Miss Anita Clements, marriage license clerk of Alameda county, today told Benjamin Thomas, of "Trot River, Or.," his family status.

Thomas objected to issuance of a marriage license to his daughter Esther, declaring he was the "legal head of the family." Miss Clements replied she would issue the license if the mother approved, adding: "The mother is the boss."

OIL TOWN
FIRE KILLS
TWO MENBusiness "Shacks" Swept
by Blaze in Texas, With
Casualty List of Three

BORGES (Tex.) March 24. (AP)—

Two men were burned to death and a third perhaps fatally burned in a fire which spread by a high wind, burned four business "shacks" on Main street of this oil town this afternoon.

One of the dead is identified as J. W. Farmer, 60 years of age, of Borgers. The other victim was not immediately identified. A laborer, Otto Elderbrook, 66, a veteran oil field worker, walked calmly from the flaming building where his comrades died, almost in living torch. Efforts are being made to save his life.

The three men were asleep in rooms at the rear of the building, one of the four or five establishments housed in four shacks built during the town's peak days.

Wet Association
Reports Survey
of Enforcement

WASHINGTON, March 24. (AP)—

Results of research made by the Association Against the Prohibition Amendment during the past year were partially embodied in a report made public today under the title "Standards of Prohibition Enforcement."

The association said the report includes "available evidence" of corruption, crime, spread, killings and abuses of legal rights attributable to prohibition enforcement, as shown in the records of identities, deaths and arrests due to drunkenness.

Under the heading "Corruption in the Law," the pamphlet discusses situations which have arisen in Philadelphia, Chicago, Pittsburgh, Detroit and Buffalo. A tabular statement of Illinois liquor and distilling apparatus is included.

"The figures indicate," the association said, "that in regions where the rum runner and the bootlegger do not find an inviting field of operations, owing to geographical isolation, pressure of population, or other deterrent conditions, the illicit still is most widely used."

NEW PRECEDENTS
This is the first time in sixty-seven years that a board of managers has been appointed to handle an impeachment trial, consequently the case at hand has to be planned slowly and carefully for the prosecution is without much precedent.

Further progress in the business of accusing a Superior Court Judge is not to be considered lightly. The managers, realizing this, check and recheck each case.

An important public hearing will be held in the Assembly chamber tomorrow night on a bill introduced by Jerrald Sewell proposing revival of hydraulic mining.

The hearing is expected to attract many representatives from the mining and farming districts. The mining men are in favor of placer operations while farmers have been the practice, saying that the debris resulting therefrom has been ruinous to their lands.

HOOVER'S GAZE
TURNS ABROADPresident Ready to Tackle
Foreign ProblemsArrival of Stimson Signal for
Intensive WorkReform of South American
Diplomacy Stated

WASHINGTON, March 24. (AP)—After three weeks of intensive work on the domestic affairs of the country, President Hoover tomorrow will devote his attention to the country's foreign problems. These Mr. Hoover laid aside at the outset of his administration, with the exception of events arising from the Mexican revolution which demanded immediate action, until he could discuss the situation with his Secretary of State, Henry Stimson.

Mr. Stimson will arrive tomorrow from Manila, where he has been on Governor-General's tour of the Philippines, and extended conferences will follow. Frank B. Kellogg has been acting as Secretary of State until his return.

Many changes in the personnel of the Diplomatic Corps are expected to result from Mr. Stimson's discussions with the new Secretary of State, and although some of these will be in changes of assignment, it is expected that there will be several vacancies to fill.

WHILE THE President's insistence upon the importance of the best possible relations with South America, which led him to make his good tour of that continent, Mr. Hoover is anxious to build up the American Diplomatic Corps there to the highest possible point of efficiency. Through his personal knowledge of the situation which is expected to be put to good account when the time comes for direct action.

WORLD COURT, TOO
The conferences with Mr. Stimson also are expected to embrace the Root formula for American action in the world, which has been the subject of the recent party at Geneva. In his inaugural address Mr. Hoover was emphatic in setting forth his opinion that America should become a member of the Court, but he has yet to make a specific public utterance on the subject. It is understood, however, that it has his approval.

Hugh Gibson, American Ambassador to Belgium, expected to return, too, with Mr. Stimson. He has been a guest at the White House for several days prior to calling for Europe and Geneva, where he is to represent the United States at the coming meeting of the preparatory committee for disarmament.

The center of the recent party at Geneva, Mr. Stimson is expected to be in the same capacity at previous disarmament discussions, notably the tripartite conference in 1927, and to be in a position to influence upon the subject. He probably will lay before the new Secretary of State the latest report of the War Department on the reduction of armaments.

Mr. Stimson also is expected to be in the same capacity at previous disarmament discussions, notably the tripartite conference in 1927, and to be in a position to influence upon the subject. PLATICAS DE
LOS LUNESPor el Profesor R. Guerrero
DEL DEPARTAMENTO ESPAÑOL
DE "THE TIMES"Según examinando el carácter
del número, en algunas palabras
"Naguar," o "naguar," no se usa
según el diccionario sino en plural,
por lo cual no sería lícito decir "la
nagua." Agregase a esto que es
impropio llamar así a la falda o
parte del traje que va de la cintura
abajo.

Llevaba la Reina adorno de diamantes en el cuerpo del traje, en la falda y en las mangas (Hart-Schuch, Discorso en contestación a D. Francisco Colindres).

Y cuando sale haciendo, la para con su "nagua".

En todo equi embelco "nagua" o "naguar" (Lope, La boda para los otros, acto I, escena XIV).

Ovidio y Fr. B. de las Casas tratan de la falda, pero no nos avisan a llamar "nagua" a un solo autor, entre otros, por Cardenal, Alvaro de Mendoza, y Valdeavida, aunque es cierto que no es el más común en los buenos escritores; éstos emplean generalmente dicho nombre en plural.

Si de call y arena, piedra y ladrillo, y de madera es el "petrecho" es la materia de que se hace la casa (Venezuela, Diferencia de idiomas, libro I, cap. X).

En contra puestas del alado pecho, ni en contrarios, muros con "petrecho".

Los tiros y aetas pomonosas (Cardinal, Opusculo XVII).

Guardado mal al en el cefido es Abierto al norte, el mar no perdura.

Más firme es el que mural "petrecho" (Cardenal, Opusculo XVII).

Digo que en celo santo y noble Dejar se debe el bécio aparato.

O volver de las armas el "petrecho" (Cardenal, Opusculo XVII).

Como la gente infiel del pueblo ingrato (Valbuena, Bernardo, libro XXII).

Ejemplo uso más común: Ni los muros condecorados iban adentro, ni la juventud ejercitaba las armas, ni los reyes se apareaban, ni en los otros "petrechos" necesarios para defensa de la patria (Cardenal, Opusculo XVII).

En el mismo sentido, el "petrecho" alimplan las armas, se reparan los muros, se fortifican las ciudades, se proveen de municiones "petrechos" (Cardenal, Opusculo XVII).

Tratado de la tribulación, libro II, cap. VII.

El "petrecho" plural solo cuando equivale a "millar," v. g.: Gastó "miles" de pesos; de suerte que los que dudaron que podía decirse "Petrecho" en plural, lo están.

No sabemos qué esta construcción sea, pero muchos la usan, y se dan de censurarla los ejemplos siguientes: La reducen a formas condecoradas, el "petrecho" de Ríos y Rosas en las Memorias de la Academia Española, tomo III, p. 10.

Pobres maladas cubren y pediles. El solar de la casa a quien el mundo "petrecho" sin en palabras "miles" (Bosque, Poesías).

"Miles" hombres por mi amor, "miles" y "miles" de gentes (Cantos populares españoles, tomo I).

FARM HEARINGS
TO BEGIN TODAYSenate Committee Will Take
Up Surplus Crop IssueAdministration Gives Free
Rein to LegislatureBrookhart Will Offer Plan
for Revolving Fund

WASHINGTON, March 24. (AP)—Preliminary work looking toward the redemption of campaign promises for farm relief will be undertaken tomorrow when hearings on surplus-crop-control legislation are opened by the Senate Agriculture Committee.

The hearings will be started without any specific proposals from President Hoover, but committee members are confident they will have the close co-operation of the President as their work progresses. They have been assured that he will express his views after a measure has been tentatively shaped up.

APRIL 15 TO BE GOAL
The intention of the committee is to have a bill ready for introduction at the beginning of the special session April 15, which has been called to deal with farm and tariff matters.

In view of Secretary Hyde's inability to be present at the opening meeting, the committee will begin with Senator Brookhart, Republican, Iowa, as its first witness.

The Iowa has a farm-relief plan of his own, but he contemplates a revolving fund of \$1,500,000,000 by which the government would buy up surplus crops, and provide a revolving fund of \$100,000,000 by the government.

Secretary Hyde has been invited by Chairman McNary of the committee to give expression to what the committee hopes will be an administration view of how to deal with the farm problem, but Hyde notified McNary that he is obliged to go to Missouri to attend to personal business. The committee expects to renew the invitation later.

In taking up its work the committee will use the McNary bill introduced last session as a basis for its discussion. This measure aims to get at the surplus crop problem by the creation of a Federal Farm Board with a revolving fund of \$300,000,000 from the Treasury, with which stabilizing agencies would be empowered to buy up surplus crops and feed them gradually into the domestic market.

There is much difference of opinion among farm leaders as to how the surplus should be handled, and just how to settle this question is considered by committee members to be their principal task. Many advocates of the equalization plan of the second McNary-Haugen bill still maintain that the surplus should be purchased for sale in foreign markets and the cost occasioned by the loss through difference in domestic and foreign prices assumed either to the farmer or assumed by the government. Proponents of the equalization plan, however, have been abandoned, because of the well-known administration opposition.

The House Agriculture Committee also will take up the farm problem in hearings to begin next Wednesday. Large numbers of farm leaders have been asked to appear before both the House and Senate committees.

PRESIDENT SUPPORTED
While many leaders had hoped that some concrete expression would be given by an administration spokesman at the hearings set up, the McNary bill, which is the basis of the McNary-Haugen bill, still maintain that the surplus should be purchased for sale in foreign markets and the cost occasioned by the loss through difference in domestic and foreign prices assumed either to the farmer or assumed by the government. Proponents of the equalization plan, however, have been abandoned, because of the well-known administration opposition.

Tod Morgan Posts \$15,500 Check for Coming Titular Ring Battle With Zorilla

CHAMP READY TO DEFEND HIS HONORS AT OLYMPIC Junior Lightweight Championship at Stake in Olympic Ring One Week From Tomorrow

Tod Morgan's check for \$15,500—his guarantee for defending his junior lightweight title at the Olympic a week from tomorrow against Santiago Zorilla—will be posted today with the boxing commission.

The title bout, although a week away, overshadows the cards this week. This is the first time Morgan has defended his belt since he won it here in 1935.

Zorilla, with only three days of boxing under his belt, has begun to hit his stride in the gymnasium. He trains daily at the Maitland street, while Morgan is working in the Manhattan.

The Little Panamanian's belt is around 130 and 131 pounds. He seems to have grown bigger during his three months' lay-off in Panama.

The Olympic main event Tuesday night features Bert Collins and Wilson Yarbrough, the Cleveland negro slagger.

Collins is chosen in spite of the fact Yarbrough had him on the floor several times their first fight.

In delving through the record books it has been discovered that the Yarbrough bout will be Collins' 20th main event and his 315th fight. He has had but fifteen preliminary bouts.

Also Yarbrough is the forty-ninth year opponent Collins has had during his career. He lost to only two of them—Charley Long and to Yarbrough, the latter on a foul.

Yarbrough is a high-powered slugger. He can name a list of names of men he has knocked down as long as his arm. Some of them were down once and some of them he has the reins as high as eleven times.

The black middleweight hits from any angle. His boxing isn't so much, but he doesn't need it with his rock.

Yarbrough had Mickey Walker down three times in Cleveland one night. He put Stanley Cella down eleven times in Chicago.

Joe Lohman and Willis Henry, light-heavyweights, lose the wind-up under Collins and Yarbrough. Bandit Garrison and Johnny DeCoursey meet in the special event.

The Olympic has had the Morgan-Zorilla fight on sale for the last week. The gate is expected to run around \$50,000.

Stanford to Face Trojans on Diamond

Coach Harry Weller's Stanford University baseball team opens a series of four games in Los Angeles tomorrow when it meets Coach "Whoo Hoo" Stanford's University of Southern California nine at 3 p.m. at Harvard Field. The Cards and Trojans will play again on Harvard Field Wednesday and Friday and Saturday Weller's boys will meet U.C.L.A. here.

Dick Schultz and Larry Dibel are slated to pitch the two Trojan games, according to Coach Crawford. Both boys have been getting reputation for their speed and with good support would not have lost a game to date. Dibel especially has been the victim of some work on the part of his team-mates. After striking out twelve men in a recent game with California he had a 7-5 game that should have been a 4-0 victory for him since the Bears did not get an earned run.

Crawford is considering making a few changes in his team in order to smooth out some of the rocky edges that showed up in the California series, and if he can find a combination to put in the field that will back up Dibel and Schultz he is practically sure of producing a winner as these boys are showing plenty on the ball.

Kern and Lewis are expected to handle the pitching duties for Stanford against the Trojans. The third game between S.C. and the Cards will be played April 9 when the Trojans go to Stanford.

LARGO CAPTURES RACE

AUTUMN (France) March 24. (AP) Large, four-year-old son of Euphor out of Largo, won the grand prix spring steeple chase, three miles and one furlong, here today with Dejeu second and Bannister third.

COO-EE WINS UPLIFTERS PLATE AS MOORE SPILLS

Spills and thrills were dished up in almost every event yesterday when the Uplifters' Club staged its first annual race meeting at Rustic Canyon, Santa Monica. Tom Moore, the motion-picture actor, played the principal role in one of the spills which almost ended fatally for the rider and horse. Moore, riding Red Feather, went into a ditch after taking a hurdle in the Uplifters' Plate but managed to escape serious injury. Moore gamely remounted and finished third. Coo-ee ridden by Harry Simpson, the favorite, won this race which was one of the features of the program staged by Sherry Baker, Australian sportsman.

Deputy George, well-known Australian steeple chaser, took a bad fall in the Hunters' Hurdle which was won by Stranger, ridden by Howard Foster. George was riding Marco Holman's Sunrise when he took the spill. He was badly shaken up but not injured badly.

The ladies' jumping cup was won by Rustic with Miss Ann Barker up. Finto with Mrs. Frank Day riding was second and Machine Gun, Mrs. Chaffey's horse, was third. Miss Audrey Scott rode

WINGS BRING FLYING FINN HERE

Runner Seeks New Date for Mile Race

Paavo Nurmi, in front, and Hugo Quist arriving

Paavo Nurmi, the flying Finn, flew into Los Angeles yesterday afternoon from Salt Lake City twenty-four hours late for his race with Nick Carter at the Coliseum.

Hugo Quist, Nurmi's manager and trainer, will go into a conference today with Los Angeles Athletic Club officials in an attempt to set another date for the mile run between Nurmi and Carter.

Nurmi is certain to run here, it was stated by Quist, but whether he can remain until next Saturday depends on the weather in Salt Lake City.

The Fokker bearing Nurmi and Quist took off from Salt Lake City at 6:30 a.m. yesterday and landed at Van Field at 1:30 p.m. Quist said Nurmi is in good condition and is ready to race Carter at any time.

BEARS NEXT FOR TROJANS

(Continued from Eleventh page)

meets on the Southern Conference schedule. Occidental has already won the championship, the crown going to the Trojans when San Diego stopped last Saturday and lost to Pomona, 87 to 53.

The Trojans have a right to be proud of their record for they have topped the title three years in a row.

Right now the Southern Conference athletes have their eyes on the Trojans. The Bears have shown little this spring and are not even reasonably strong in events where the Trojans are weak.

However, the meet will serve to give Dean Cromwell a final peek at his protégé before the all-important struggle with Stanford. It might bring forth some good performances on the part of boys who hardly figure to place against Stanford at this writing.

Such fellows, for instance, as Jose Mercurio in the javelin, Van Vleet in the discus, Scheimer in the shot, Bowen and Tintinger in the high jump and Jimmy Payne in the hurdles.

If Mercurio, a big, strong athlete, who goes best under the strain of competition, could add seven or ten feet to his toss he might upset the dope very badly in the javelin, where Stanford now figures to take 6 or 9 points.

Van Vleet could boost the discus to 140 feet, instead of 132 ft. He might even take the discus to the three places in this event.

More tries

If Schultz should forget himself and go off in the shot put he might pick up a lone digit here, something not figured at this writing.

If Bowen and Tintinger should clear off, they might be able to repeat at Stanford and thus take a heavy load off Cromwell's mind.

And if Payne should return to form in the high and low hurdles it might mean the meet—provided all these other things should happen.

Nice dream, eh, what?

PACIFIC NATIONALS WIN

AK SIGNS FOR SCRAMBLE

to Meet Sonnenberg for Wrestling at Olympic on April 3

Jack, the 235-pound Polish mat giant who defeated the world champion, is scheduled to meet Sonnenberg for wrestling at the Olympic on April 3. Sonnenberg, who is a member of the Los Angeles Athletic Club, is a former world champion and has been defeated by Jack in a previous match. The match is expected to be a close one, as both men are highly skilled wrestlers. Sonnenberg is a former world champion and has been defeated by Jack in a previous match. The match is expected to be a close one, as both men are highly skilled wrestlers.

PICKED

AD SQUAD

The Los Angeles Athletic Club has picked a squad of athletes to represent the city at the Olympic games. The squad includes several top athletes in various sports, including wrestling, boxing, and track and field. The athletes will be training intensively in the coming months to prepare for the games.

Beats Ventura-Ojai, 7 to 0, in Final Group One Interclub Team Match

SHEIKS WIN SOCCER TILT

Hollywood Cinches Championship in Local Loop by Downing L.A.A.C., 9 to 1

Hollywood handed out a severe drubbing yesterday in Loyola ground to L.A.A.C. by the stupendous score of nine goals to one. This is by far the heaviest defeat that has been sustained by any team this season locally, and right from the kick-off the film men swept down in perfect team formation, and within two minutes had netted through Parkinson. The game had barely commenced when Hollywood's attack was in full swing. The team scored seven goals in the first half, and three in the second. The final score was 9 to 1. Hollywood's victory was a decisive one, and they are now the champions of the local loop.

Five goals to nothing, at half-time, was more than enough to secure the championship for Hollywood. The team's attack was relentless, and they scored goals with ease. The goalkeeper for L.A.A.C. was unable to keep up with Hollywood's onslaught. The match was a display of Hollywood's superior skill and teamwork.

MARTIN WINS

AT LAKESIDE

(Continued from Eleventh page)

On the last line, Martin won the match by a score of 3 to 2. The match was a close one, with both players showing excellent skill. Martin's victory was a well-deserved one, as he had been in excellent form throughout the tournament.

The match was a highly competitive one, and both players gave their best. Martin's victory was a testament to his skill and determination. The crowd was highly entertained by the match, and they were cheering loudly for both players.

Take Care of Club Shafts

WHEN CLUBS ARE USED OR NOT IN USE, LAY THEM ON SHAFTS LIKE THIS

BY SOL METZGER
"We actually lose money," said the club-maker at a certain golf club, "in taking care of our members' clubs at such a nominal fee. That was a startling statement. I asked the reason."

It seems that when members take care of their own clubs, they either lose them or have them damaged. In each instance the club-maker is forced to replace the club. Replacing a club costs more than the nominal charge of \$1 a month made at most clubs for the care of one's golf sticks. When golf clubs are not in use, they should be laid on their shafts. This prevents the head from being damaged by the weight of the club. It also prevents the shaft from being bent. This is a simple but effective way to keep your clubs in good condition.

Putting is half the game. Sol Metzger has prepared a fine booklet on putting which he will send free to any reader sending stamped, addressed envelope. Address The Golfing Club, 1234 Main St., New York, N.Y.

Bagley Given Tough Battle

Bob Bagley, defending champion, was carried to three sets by Fred White, in the feature tilt at the Harvard Tennis Club's closed membership classic at the Harvard playground courts yesterday.

Bob Bagley, defending champion, was carried to three sets by Fred White, in the feature tilt at the Harvard Tennis Club's closed membership classic at the Harvard playground courts yesterday. Bagley was the favorite to win, but White proved to be a tough opponent. The match was a highly competitive one, and both players gave their best. White's victory was a surprise, as he was not considered a top player. The crowd was highly entertained by the match, and they were cheering loudly for both players.

EXHIBITION BASEBALL GAMES

PIRATES AND COASTERS DIVIDE HONORS

San Francisco, March 24. (AP)—The Pirates and the Coast Guard divided honors in their exhibition series in this section today. The Pirates won the first game, but the Coast Guard won the second. The games were highly competitive, and both teams gave their best. The crowd was highly entertained by the games, and they were cheering loudly for both teams.

FAVORITES WIN AT TENNIS

Single Upset Marks Play in Second and Third Round of Santa Monica Tournament

Favorites in the ninth annual spring tennis classic came through the second and third rounds of the Santa Monica tournament yesterday at Clover Field barring a single upset. Several stars were defeated in a few of the events on failure to make an appearance. Arthur Kussman, lanky Occidental College star, went out of the men's singles via the defeat route, which advanced Larry Hammond to the second round. Jack Delara also failed to show up but may play this afternoon. Gerald Barsh, in his field after a win over Ed Schwartz by a 6-1, 6-4 score.

Elizabeth Dike of Pasadena, and Margery Sturgeon of the city were the leaders in the women's singles. The former defeated Julia Harris, 6-0, 6-3, while the latter conquered Miss Anselm at 6-4, 6-4, thereby entering the quarterfinals.

Yesterday's results and today's schedule are as follows: First round—Wood defeated Chappell, 6-1, 6-4; Harris defeated Kussman, 6-0, 6-3; Barsh defeated Schwartz, 6-1, 6-4; Hammond defeated Delara, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Second round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Third round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Fourth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Fifth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Sixth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Seventh round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Eighth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Ninth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Tenth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Eleventh round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Twelfth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Thirteenth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Fourteenth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Fifteenth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Sixteenth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Seventeenth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Eighteenth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Nineteenth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Twentieth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Twenty-first round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Twenty-second round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Twenty-third round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Twenty-fourth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Twenty-fifth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Twenty-sixth round—Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4; Hammond defeated Barsh, 6-1, 6-4; Sturgeon defeated Dike, 6-0, 6-3; Anselm defeated Harris, 6-4, 6-4.

Jack Dempsey Recuperating

NEW YORK, March 24.—Jack Dempsey, former world's heavyweight champion, was reported tonight as almost recovered from the effects of a minor-league operation he underwent yesterday morning in the New York Polyclinic Hospital.

The operation was performed by Dr. R. E. Brennan, member of the hospital staff and long a friend of the champion. According to the hospital, the operation was completely successful and necessitated his remaining in the hospital only briefly. Today Dempsey went motoring with his wife.

Interment of Williams in Oregon City

Body of Deputy Sheriff, Portland Pacific Coast League center-fielder, who was killed in automobile accident near here last night, will remain at a funeral home here until Tuesday when it will be shipped to the Oregon city for burial.

Williams' wife, who had gone to Mobile, Ala., to attend the funeral of her father, was notified of her husband's death today. Mack Hills and George Westinghouse, members of the Portland baseball club, who also were injured in the accident, were removed to a hospital in Santa Ana, where Hills was said to be suffering from brain concussion and Westinghouse from shoulder and leg injuries, which would keep him from the Beaver line-up at the opening of league play.

Portland's scheduled exhibition games scheduled today and Monday.

Williams, who was with the Boston Red Sox last season, is survived by his widow, a brother, William Williams of Hollywood, and a sister, Mary Williams of Portland.

Five Portland players were riding in the automobile which plunged over an embankment killing Williams after being side-swiped on the highway. They were returning from San Diego, to their training camp at Anaheim.

BEAR CAGERS HONORED
BERKELEY, March 24. (Exchange)—The season officially closed for the University of California's Pacific Coast Conference championship basketball team. Gold basketball medals were presented to all letter men on the team and Golden Bear blankets given to Rufe Gregory and Chuck Corbin in recognition of their three-year varsity records. Corbin, Gregory and Leonard Stevens, regular game starters this year, graduated in May.

GOOD CHANCE
Los Angeles has a good chance of doing this if able to down Oakland tonight as the San Francisco Seals play here Thursday night and may be ditched again as was the case Thursday night when Richmond won, 4 to 3, in San Francisco.

It will be a more daring, determined Richmond team that will be seen in action against the Oaks tonight. The Oaks always have played along hockey, like a bunch of rough boys, but last night they gambled on every opportunity and the result was a well-earned victory.

THE SEALS
The Seals' season officially closed for the University of California's Pacific Coast Conference championship basketball team. Gold basketball medals were presented to all letter men on the team and Golden Bear blankets given to Rufe Gregory and Chuck Corbin in recognition of their three-year varsity records. HOCKEY TEAMS CLASH TONIGHT

Bitter Battle Expected as Old Rivals Meet

Play-off Right at Stake in Winter Garden Tilt

Sheiks Can Cinch Title if Victorious in Game

A titanic struggle over possession of second and third places and with no little bearing on first place will be started on the ice at the Winter Garden Ice Palace tonight, when the league-leading Oakland Oaks renew their grudge match with the Los Angeles Richfields. The four teams of the California Hockey League are so closely bunched that most anything can happen in the next three hockey nights that will conclude the scheduled season. So closely bunched are the teams that a win here for one team and a loss there for another team can completely change the standings.

OAKS LEAD
Oakland is out in front, four points to the good, but even Oakland must hustle to clinch first place on the coveted berth in five-game play-off which will end the league season. For example, should the Oaks drop tonight's game to the Richfields and then drop games, the Millionaires could take first place by winning all remaining games. This is not impossible, not the way the teams are smacking each other these days.

no worse than a tie in the final stand-up by winning tonight, so watch the Sheiks get out there and hustle for all they are worth. Should the Oaks win tonight, the Millionaires would have to win their three remaining games while Oakland was losing two to tie. With so much hanging on the outcome of tonight's game, plenty of sticks, fists and fur should fly. But there will be yet another simultaneous desire of the Richfields to get into the two-game, total-goal play-off that will be played between the second and third place teams to decide the entrant in the five-game championship series.

GOOD CHANCE
Los Angeles has a good chance of doing this if able to down Oakland tonight as the San Francisco Seals play here Thursday night and may be ditched again as was the case Thursday night when Richmond won, 4 to 3, in San Francisco.

OIL PLANS HUNTINGTON
Test of Original Field Scheduled to Start
Cost Correlations in Drill Project
Expected to Settle Substantial Question

Original producing area of Huntington Beach field is to be tested within a week, according to an announcement by the West Coast Oil Company, Inc., which is conducting the project.

It is expected that the test will settle a substantial question as to the possibility that the Huntington Beach field is a continuation of the old Brea field, which was discovered in 1891.

Uncle Walt! You shouldn't have your hands in your pockets.

Project Costing \$2,750,000 to Furnish Supply to San Antonio and Vicinity

AUSTIN (Tex.) March 24. (Exclusive)—Natural gas for a number of towns and industries of the San Antonio territory will be supplied from the Refugio field by the Houston Gulf Gas Company, subsidiary of the United Gas Company which is one of the Moody-Beauregard group, according to information received by the oil and gas division of the Railroad Commission.

The new pipeline will be completed and in service by June 30, it is expected. It will cost approximately \$2,750,000.

The line from Refugio to a point some twenty-two miles east of San Antonio will be 106 miles long and will be laid with sixteen-inch pipe.

Along the line the Houston Gulf Gas Company will supply Karnes City, Kennedy, Floresville, Poth, Falls City, Elmore and Samsam.

A lateral line, which will connect with the main line at a point in Karnes county, will run east to Yorktown, supplying that place and the intermediate points of Binger and Nordheim.

An extension of the natural gas pipeline from the Refugio field to the Gulf Coast is being planned by the Houston Gulf Gas Company so as to make the service available to Raymondville, Binger, Harrell and Lears.

The company's pipeline from the Refugio field to the Gulf Coast is being planned by the Houston Gulf Gas Company so as to make the service available to Raymondville, Binger, Harrell and Lears.

Construction will be started soon by the Lone Star Gas Company of a twenty-inch natural gas pipeline from Refugio to Fort Worth and Dallas, 135 miles, according to L. B. Deming, president of the company.

The pipeline will have a daily capacity of more than 100,000,000 cubic feet of gas and it will be the largest gas pipeline in Northern Texas.

It will give the company four trunk pipe lines into Fort Worth and Dallas, leading from the fields of Oklahoma and Northwest Texas.

In addition to supplementing the gas supply of the larger cities of Texas, the new pipeline will enable the diverting in cold weather of gas from the distant fields to Waco, Temple, Georgetown, Conroe and other towns of Central Texas, it is asserted.

Camco Finishes Bridge to Carry Pipe Line to Trinity County Ground
Overcoming delays and obstacles which have retarded the consummation of company plans for the past two months, the Camco Consolidated Corporation of Los Angeles has completed a bridge over the South Fork of Trinity River in Trinity county.

It has a span of 150 feet and is built primarily to carry the hydraulic pipe line to a designated point on the company's Camco placer diggings near Belzer, for the recovery of values in the gravel bars and deposits, consisting of platinum, iridium and gold.

LEASES HELD UP BY INJUNCTION

Industry Would Conserve Oil Supply

Bids on Texas University Oil Lands Estopped
Checks Returned to Lessors Total \$4,000,000
Legislature Makes Changes in Law Involved

AUSTIN (Tex.) March 24. (Exclusive)—Opening by J. T. Robinson, State Land Commissioner, of competitive bids for the leasing of the oil and gas rights of 50,000 acres of land owned by the University of Texas, partly situated adjacent to oil fields in West Texas, revealed that the total amount of the checks in payment of bonuses by prospective lessees was more than \$4,000,000, much of which would have gone to the permanent fund of the university had the leases not been stopped by temporary injunction.

The attorneys in the litigation brought by the Regents of the university to stop sale of the leases entered into an agreement for the lease to be opened and checks enclosed by prospective purchasers returned, should the temporary injunction be upheld. The lands were in eighteen West Texas counties.

The first sale, advertised for January 2, was stopped by injunction, and nearly 1,500,000 acres of lands offered on other dates during the month were taken from the market when the Legislature repealed the public land-leasing law.

The bids ranged from \$25,000, offered by Leland Fikes of Fort Worth for a 500-acre tract in Crane county, to \$250 per acre for a block of land in Ward county.

Since the temporary order was issued the Legislature repealed the oil lease-law and passed other statute placing this duty in the hands of the Land Commissioner and two members of the University Board of Regents.

STATUS OF WILDCATS REPORTED
Progress at Several in Various Kern Districts Briefly Reviewed

BAKERSFIELD, March 24. (Exclusive)—Wildcat drilling continues in a number of localities in Kern county. The Elmer Oil Company is down 150 feet in its well in the Elmer field, near McKittrick. The Day Oil Company is mudding its No. 1 hole at 610 feet on Sec. 1, 27-18, in the Shale Hills.

The Texas Company is going through tough shale in its Adair No. 1 on Sec. 4, 28-18, near McKittrick. The Day Oil Company is mudding its No. 1 hole at 610 feet on Sec. 1, 27-18, in the Shale Hills.

MINE PLANS MILL
Flotation Plant Projected for Oregon Property

It is reported here that the Record Mining Company of Baker, Ore., has contracted with the Southwestern Engineering Corporation of the design and equipment of a 100-ton flotation mill plant for its property at Unity, not far from Baker.

The mine run of ore, it is stated, is a partially oxidized sulphide, with a high percentage of copper. The company is reported to have opened up a large body of ore and has a considerable amount of good material on the dump ready for mill treatment.

Construction work on the new mill is to start at once, and it is planned to have it ready for operation about May 15.

PLAN OVERPRODUCTION BATTLE

Industry Would Conserve Oil Supply

Attempt to Balance the Scales
Head of American Petroleum Institute calls upon leaders in industry to supply their natural geographical markets.

Too much crude oil is being produced for the world's markets. But how can the production of the different oil regions of the world lawfully be held within the bounds of their respective natural geographical markets?

These are some of the questions outlined by President E. B. Reeser of the American Petroleum Institute in a letter to a recently organized committee on world production and consumption of petroleum and its products, appointed by the institute's executive committee.

Reeser is also president of the Petroleum Institute of Mexico, chairman of the committee, upon which the principal executives of some eight oil companies operating in the United States, Mexico and Northern South America are represented.

MINE AREA IN NEVADA LOOKING UP
Eldorado Canyon Field Reported as Reviving by Pasadena Operator

The mining industry of El Dorado Canyon district in Clark county, Nevada, is "looking up," according to George A. Duncan of Pasadena and Las Vegas, as Los Angeles reports who has developed a proposed revival of activities in the development and operation of the property of the Eldorado Empire Mines Company, of which he is manager, and which is a near neighbor of the famous Teahachup mine, a producer of considerable gold during the past year.

Mr. Duncan reports an effort is being made toward the rejuvenation of the noted Wall street mine, while it is reported a five-foot ore body, exposed on the 400-foot level of the old Quaker City bonanza, also in the district, assays 900 in gold to the ton.

P. A. Kappel, superintendent of the Eldorado Rand Company, now working two shifts on ore averaging about 654 in gold to the ton, is quoted as saying that a January clean-up from the milling plant weighed forty-five pounds, interest in the district, the expectation being that the next clean-up will be the largest to be made since the milling plant was placed in operation.

Mr. Duncan states, also, that the central is also being derived in milling operations. The Boulder dam situated on the Colorado river, is drawing attention to the great mineral wealth and resources of the Eldorado Canyon section of Nevada.

BAILING MUD AND OIL
Shell's Round Mountain Well Also Shows Gas

ROUND MOUNTAIN, March 24. (Exclusive)—The Shell Company has been bailing oil and mud with some gas showings from its Jerald No. 5 well on Sec. 29, 28-29 at Round Mountain. The No. 2 well is pumping 21 deg. gravity oil found at 1600 feet, into the pump. Location has been made for Jewett No. 6 on Sec. 29, 28-29.

The St. Helens Petroleum Corporation has streaks of oil sand at 2037 feet in its Kernco No. 3 well on Sec. 12, 28-28.

POSOS CREEK OPERATIONS SUMMED UP

Situation at Various Projects in District Given for Week

POSOS CREEK, March 24. (Exclusive)—The Ohio Oil Company is on top of the heavy oil sand in its Premier No. 1 well on Sec. 27, 27-27 in the Posos Creek field. The well is now down 2601 feet.

The Petroleum Securities Company has completed its No. 10 well at Posos Creek on Sec. 8, 28-28 at 1728 feet and the production has been shut in. The No. 11 well on Sec. 21, 27-28 is to have rotary equipment. Boilers are being set for Coffee No. 1 on Sec. 5, 24-28, and grading a gully forward for Coffee No. 2. These two wells are in the Round Mountain extension.

The district first attracted attention about twenty-five years ago, following a series of rich surface strikes, but the claims were practically abandoned after rain officials to locate commercial ore below the 100-foot horizon.

A giant mining corporation is being formed by Thomas F. O'Leary and associates to take over and operate the principal ledge and placer properties at Manhattan. The deal includes the White Cop and Nevada Coalition mines and the Donald placers, extending for six miles along Manhattan gulch.

It is reported that the Amalgamated Extension and Manhattan Consolidated mines may be included in the consolidation. The Nevada Coalition controls the Scherbert-Coop gold property and the War Eagle mill. Plans of the new corporation are said to include the erection of a mammoth mill, and operation of a group of large properties through a central shaft.

The Boulder Hill group of gold claims, located about ten miles southeast of Manhattan, has been taken under bond and option by A. H. Grady and associates of Los Angeles. The property is said to contain a ledge twenty miles wide, with the five-foot pay-shoot averaging about 615 per ton. It has been opened at surface for approximately 100 feet. The main tunnel has been driven 240 feet and is figured to cut the ore body 250 feet below surface within 100 feet.

KERN FRONT PRODUCTION INCREASED
Two New Producers in Oldale Section Added During Last Week

OLD DALE, March 24. (Exclusive)—Two companies were reported on the Kern front during the past few days. The Richfield Oil Company brought in its No. 30 on Sec. 23, 28-27, at 2290 feet. The well is good for 350 barrels daily, but has been shut in. The company has started the location for its No. 28 well 1900 feet south and 234 feet west of the northeast corner of the same section.

The other completion on the Kern front was the Texas Company Midland No. 5 well, which is down about 105 barrels from a depth of 2030 feet. The Midland No. 3 is standing on Sec. 14, 28-27, with casing set at 1770 feet and bottom of the hole at 1797 feet.

Chas. McVane, a prominent oilman, is in charge of mining operations there.

McCARNEY ON STAFF OF SILICA CONCERN
O. A. McCrany, superintendent of the Argonaut mine for the past year and a half, has resigned to take charge of the Argonaut project in Shasta county. Mr. McCrany is credited with having been largely responsible for making the Argonaut a profitable operation the past year. W. E. Scott, foreman the last two years, will be in charge of mining operations there.

Bank Stock Trust Shares
SERIES C-3
An Investment Trust Established and Managed by UNITED STATES SHARES CORPORATION
Incorporated under the laws of the State of New York
Empire Trust Company, Trustee

Dividends payable by Trust, January 1st and July 1st. Certificates issued in denominations of 5, 10, 25, 50 and 100 shares. Registered both as to principal and dividends, or in coupon form.

Dividend Income Free of Present Normal Federal Income Tax in Opinion of Counsel
Dated as Issued
Due January 1, 1949
Plan of Operation
Shares of bank stocks in identical units are deposited with the Empire Trust Company, Trustee. For each deposit, 1,000 Bank Stock Trust Shares, Series C-3, are issued.

A holder of trust shares owns a specific interest in the underlying assets as definitely as though he himself had deposited them with the trustee (under the terms of the trust indenture) and had received a deposit receipt from the trustee to that effect.

THESE BANKS REPRESENTED IN BANK STOCK TRUST SHARES, SERIES C-3

Bankers Trust Company, Capital \$10,000,000, Assets \$10,000,000, Liabilities \$10,000,000, Net Worth \$10,000,000

News From Oil Fields and Mining Camps

ANGELENOS BUY MINE PROPERTY

Cooley Butler Group Takes Over Black Bear

Consideration Reported as Being \$75,000

Company Plans Operations on Large Scale

SACRAMENTO, March 24. (Exclusive)—The already extensive holdings of the Cooley Butler syndicate of Los Angeles in the Grass Valley district have been augmented by acquisition of the Black Bear gold property. The purchase price calls for payment of \$75,000 over a five-year period, with \$10,000 in cash.

The Black Bear is credited with containing several veins of profitable ore, and has been worked along limited lines. The Cooley Butler interests control the Peabody, Golden Center, Alta Consolidated and several other noted properties near Grass Valley, and is reported completing preparations for large-scale activities.

The Vallejo Central placer, near Vallejo in Calaveras county, have passed into the control of the Old Gold Extension Mining Company, composed of Southern California people. The property embraces sixty acres, located near the Vallejo Western, Butte Mining, Manuel Ranch and other noted producers. Mining has begun with Robert Mack in charge of the work.

Sale of the noted French gold mine, near Greenwood in El Dorado county, is announced by J. M. Berry, former owner. The old shaft is to be deepened, new ground vigorously developed, and a mill, compressor, machine drills and other equipment installed. All machinery will be electrically operated. The French mine for many years was noted for its yield of rich ore, but has been idle since the war.

Development of the Davies and Valenti gravel properties, near Angels Camp, is being conducted by Oscar Halstrom and associates of Pasadena, with excellent material said to be showing. Both of these properties are located in a rich placer field, with the outlook reported as being favorable for production before the year ends.

KNIGHT REPORTS ON GOODSPRINGS

Yellow Pine President Sees District's Revival

Recent Metals Advance Held Spur to Operations

Argentine and Azurite Mines Running Full Blast

Joe Knight of Good Springs, Nev., a heavy stockholder in the Yellow Pine Mining Company of that place, who is in Los Angeles, states that while the Yellow Pine mine is temporarily closed down, the recent sharp advances in metal market quotations is causing renewed activity in mining in that section, and Knight reports, instead of resuming work on the Red Streak claim, which has shipped some very high-grade ore in the past.

The Argentine Mining Company of Los Angeles, Mr. Knight says, is working a full force at the mine and has started its milling plant which is turning out a fine grade of lead and platinum concentrates.

The Smith Brothers & Co. lease on the Anchor mine, according to reports, has struck a new body of lead-zinc ore, and the mill at the mine is in regular commission; while it is announced that the Dick Munsberg lease on the Millford mine is taking out some high-grade ore.

RIGGING FOR START

MARIPOSA, March 24. (Exclusive)—The Union Oil Company is rigging up its No. 4 shaft in the Sunset field on Sec. 10, 11-23, where the No. 3 well is going down at about 500 feet in gray sand. The hole has been standing completed the past few days.

Replacing a number of smaller plants, concentration has been entered in a mill here, one on which \$100,000 is being spent to increase capacity from 400 to 500 tons a day, as well as in improvement of the flotation system, with special adaptation to local conditions.

A long drainage tunnel is being dug under the Morenci basin, with outlet on Chase Creek, above Clifton, though there appears only slight prospect that this will be used for handling any ore.

On the main shaft has been installed new hoisting machinery, with gearless elevator. Now planned is exploration of a broad area by diamond drilling, especially to determine the limits of a body of low-grade ore already partially developed.

The Morenci branch will be host, through Manager Frank Ayer, to the annual meeting of the Arizona Chapter of the American Mining Congress, April 1 and 2.

SAN JOAQUIN PRODUCTION SHOWS DROP

Figures for February 493,475 Barrels Under January Total

BAKERSFIELD, March 24. (Exclusive)—Oil production from the fields of the San Joaquin Valley decreased 488,485 barrels during February below the figures for January. The last report is as follows:

Production for February, 3,871,173 barrels, a daily average yield of 131,830 barrels, while the total figure for January was 4,194,658 barrels.

February's production came from 519 wells now on the active list and was divided by fields as follows: Midway-Sunset, 1,978,608 barrels; Kern River, 1,025,601; Kern River, 496,000; Coalinga, 362,836; McKittrick, 139,204; Lost Hills-Beirdge, 124,046; Kettleman Hills, 94,621; Wheeler Ridge, 21,640; Fruitvale, 20,069; Poco Creek, 30,671; Round Mountain, 748 barrels.

During February there were twenty-five new wells completed with an initial daily output of 5921 barrels, 2280 barrels of which came from the Poco Creek field, 1574 from Midway-Sunset, 1000 from Fruitvale, 775 from Kern River, 225 from McKittrick, and fifty-seven from Beirdge.

Thirty-one new rigs were erected and sixty-four wells were reported as being on the active drilling list.

ROTARY RIG MOVING

Chandler-Candfield to Start New Well at Fellows

FELLOWS, March 24. (Exclusive)—After completing its No. 3 well on Sec. 7, 22-23 in the North Midway for 700 barrels, the Chandler-Candfield Midway Oil Company has moved in a rotary outfit to drill its No. 4 on the same section. Foundation is being put in for its No. 1 well.

The Texas Company is preparing to run ten-inch string in its No. 3-18 well on Section 21, 31-22 in the North Midway. The hole is down 530 feet in brown sand and shale.

AREA WIDELY MINERALIZED

Replacing a number of smaller plants, concentration has been entered in a mill here, one on which \$100,000 is being spent to increase capacity from 400 to 500 tons a day, as well as in improvement of the flotation system, with special adaptation to local conditions.

A long drainage tunnel is being dug under the Morenci basin, with outlet on Chase Creek, above Clifton, though there appears only slight prospect that this will be used for handling any ore.

On the main shaft has been installed new hoisting machinery, with gearless elevator. Now planned is exploration of a broad area by diamond drilling, especially to determine the limits of a body of low-grade ore already partially developed.

The Morenci branch will be host, through Manager Frank Ayer, to the annual meeting of the Arizona Chapter of the American Mining Congress, April 1 and 2.

OIL SHIPMENTS SHOW INCREASE

Exports Here 47,609 Barrels More Than Week Before

Total Bulk Petroleum Sent Out 2,181,794 Barrels

Large Increase in Pacific Foreign Trade

Another increase was noted last week in bulk petroleum exports from Los Angeles Harbor. It amounted to 47,609 barrels in excess of the preceding week's movement.

The number of barrels totaled 2,181,794 last week as against 2,134,185 the preceding week.

Fuel oil lead the list with a total of 730,113 barrels, and gasoline was second, totaling 626,619 barrels. Crude took third place with a total of 591,182 barrels.

The Pacific domestic trade called for a total of 1,066,231 barrels, considerably less than called for the preceding week. This shipment included 374,133 barrels of crude, 587,671 barrels of gasoline, 104,427 barrels of kerosene and 100,000 barrels of fuel oil.

Exports for the week totaled 1,115,563 barrels, including 590,249 barrels of fuel, 47,609 barrels of crude and 46,719 barrels of gasoline. Also, 94,823 barrels of kerosene and 9004 barrels of lubricating oil was included in this shipment.

Calls for increased shipments for the Atlantic domestic trade, boosted last week's total. Shipments for this trade called for 479,719 barrels, embracing 253,544 barrels of gasoline, 140,860 barrels of crude and 78,235 barrels of kerosene.

A single shipment of 130,837 barrels of gasoline was made to the Pacific foreign trade.

KNOWLEDGE and Experience

Safeguard Your Investment and Increase Your Profits

It is safe to assert that by far the greater portion of the money that has been lost in oil development and production ventures has been due to ignorance and inexperience in the choosing of location, drilling of wells and handling of production when obtained. Knowledge and experience are absolutely vital to the success of a company engaged in the development and production of oil.

A Sound Investment

BEFORE underwriting the shares of Federal Oil Company of California we made an exhaustive investigation of its management with special attention to the handling of its finances and its operations in the field. We found both departments in the hands of men of broad, successful experience... who know both the theory and practice of where to go for

manager and developer of oil properties in Southern California. We believe that through Mr. Johnson and the field he has associated with him we have been able to insure our company the minimum of expense in every well drilled. Mr. Johnson has seen us through the entire process in the industry and knows every phase of production. He is an expert in the best sense of the title. His connection as the field executive of this company is especially valuable since by far the greater part of its quarter-century of experience as an oil producer has been in the Southern California fields in which this company expects to be most active.

"Our board of directors is small, its members are all of them are substantially interested in the company and who are giving active service to its management."

For many years before the advent of the pipe line, all in California was transported from the field to the refinery by such means, drawn by mules. This was the early foundation of the oil business and was used for many years.

Reducing Speculative Factor to Minimum

"We have selected our leases with a view to eliminating as far as possible the speculative factor in our drilling operations. Our drilling plans have been laid out with a view to continuity and the maximum of economy in carrying out the program. Our organization is complete, complete and unshakable. We are working upon our expanded program of drilling, to which the financing is being supplied, with confidence of success."

Since 1880 the pipe line of California has been carrying a steady flow of oil valued at billions of dollars to the refineries of the state. The California line has more than 5,000 miles of pipe line, 25% of the nation's production.

acquire other leases of equal value. In our opinion the company is not equitably toward an outstanding success. We regard its shares as an offering with reasonable and very attractive expansion of very substantial profits. It is an investment wherein knowledge and experience in the management have reduced speculative factors to the minimum and where the same qualifications should exist for the maximum in profits.

Today petroleum transportation is largely handled by vast fleets of tankers. This is the progress of the early days in the petroleum industry when barrels were loaded with crude to be sent to the refineries located at a distance.

JULIAN STOCK TRANSFER NEAR

New Stock to be Issued
After April 15

Pulling Out of Financial
Mire, Officials Say

Election of New Officials
Scheduled Soon

Holders of Julian Petroleum
Corporation shares will receive stock

in the reorganized company shortly

after April 15, it was announced

yesterday by officials of the company.

Approximately 30,000 certificates

representing an amount equal to the

stockholders' number of shares in the

original company will be issued

immediately after the old Julian

organization officially becomes the

Sunset Petroleum Oil Company.

Present plans call for the complete

transfer of Julian assets to the new

company on April 15, and which will

terminate the efforts of Joseph Scott

and H. L. Carnahan, receivers who

have brought the company from the

chaotic state it was thrown into by

stock manipulations nearly two years

ago to an organized and fairly well on

the road to a profitable corporation, officials

of the company said.

Although no figures were made

RIVALS PLAN JOINT FLIGHT

Will Go After Refueling Record

Left to Right, Mrs. Louise McPhetridge Thaden and Bobbie Trout

OBIE TROUT of Los Angeles and Mrs. Louise McPhetridge Thaden of San Francisco, aviatrixes who have competed during the past two months for the women's air endurance record, have decided to call off their mutual challenges and co-operate in setting a new record.

The California women flyers are planning to take off as copilots as soon as they can obtain a large cabin plane equipped for taking on fuel and food in mid-air.

Although Mrs. Trout said that the flight may take place either above Los Angeles or San Francisco, it was reported from persons who are adding the two women flyers with their plans that the take-off will be from the Grand Central Air Terminal in Glendale.

We still are up in the air, so to speak, as far as the details of our plans are concerned," Mrs. Trout said last night.

The flight, however, is on, and the ship we want will be a single-engine cabin job. There's no use of first myself and then Mrs. Thaden making separate flights. We'll go up together, take on supplies in the air and fly until our motor lets us down.

A. V. Thaden, executive of the Thaden Metal Aircraft Company of San Francisco, Mrs. Thaden's husband, is the builder of the first all-metal airplane on the Pacific Coast.

Mrs. Trout stated, however, that the endurance flight will not necessarily be made in one of the Thaden six-passenger cabin planes. Without refueling, Mrs. Trout set a nonstop flight record here on February 11 when she remained aloft for seventeen hours.

Mrs. Thaden broke Mrs. Trout's record by five hours in a flight over San Francisco last week. The local girl flyer then announced that she would attempt to regain the endurance record, but on December 28, 1928, in a climb above Oakland, shattering the former record of 15,000 feet made by Lady Mary Heath of England.

LIGHTS ASKED FOR
Petitions have been received by the City Council for the installation of ornamental lighting systems on Second street between San Pedro and Main streets, Fairfax avenue between Wilshire and Beverly boulevards, and Cummings street between Brooklyn avenue and Sheridan street.

Following is a list of the petitions, as received by the Board of Public Works and the Council's Traffic and Street Lighting Committee.

MOORE TAX LIENS FILED
Three income-tax liens are on file today against Tom Moore, 602 North Camden Drive, Beverly Hills, for additional taxes for the years 1924, 1925 and 1926. The liens and penalties total \$2025.

LAST TAX DATE NEARING
Blue weather ahead for the taxpayers. For, in event it has slipped your mind, the time is here when all good taxpayers must begin to think about tendering checks to County Tax Collector Welch in settlement of second installment tax claims for the 1928-29 levy.

And on top of that, County Assessor Hopkins has sent forth an army of 800 deputies to place valuations on property for the 1929-30 assessments.

FIVE WEEKS AWAY
April 29 will be the last day for paying current taxes, according to Welch, who points out that that date is just a mere five weeks away. After that day, second-installment taxes which have not been paid will be subject to the usual penalties.

The public will have until July 1 to list personal property, on which assessments will be made for the year 1929-30, according to Assessor Hopkins. Veterans and others en-

ROAD MISHAPS FATAL TO THREE

Motorcyclist Kills Man and
Speeds Away

Bystander Says Three Cars
Pass Over Body

Crash Ends Student's Life;
Six Injured

Three men are dead and six persons received serious injuries in traffic accidents yesterday and last night, police and hospital records showed.

Jovo Dadinovitch, 40 years, of 413 North Barnick street, Belvedere Gardens, was struck in front of 4300 Brooklyn avenue, by a motorist who drove rapidly away. The tragedy was witnessed by O. R. Brewster, 3813 Kalamazoo street, Belvedere Gardens, who told the police that he saw three other cars pass over the body of the fatally injured man, and that none of them stopped to render aid.

Brewster notified the police, and Dadinovitch died in the ambulance while being taken to the General Hospital.

Albert B. Ward, 48 years of age, of 3435 Dayton avenue, died in Georgia-street Receiving Hospital a short time after he was struck by a Santa Fe freight train at Avenue 39 and Pasadena avenue. According to witnesses, the train was down when Ward walked under them and onto the tracks, as the train, loaded with crushed rock, and in charge of Engineer O. B. Kelly and Fireman D. C. Kirk, approached. He was thrown fifty feet.

STUDENT KILLED
Warren Payton, 18-year-old student of 1229 North Olsen Road, Hollywood, died last night in the Santa Monica Hospital of head injuries received when the car he was driving on Santa Monica Boulevard early last night hurled the curb at the intersection of Glendon street and crashed into a pole.

Floyd Freed, Payton's 19-year-old companion, of 1229 Olsen Road, Hollywood, was treated at the Santa Monica Hospital for serious cuts and bruises.

LOSERS CONTROL
Sawtelle police reported that in attempting to avoid striking an automobile driven by Otto Knoche, 8841 Denver avenue, Payton lost control of his car. Knoche was not hurt by police.

In a collision between a coupe and a dairy truck Miss Thelma Harper, 30 years of age, of 1222 East Twentieth street, suffered a fractured skull, from which she may die, according to Police Surgeon Sawtelle at Georgia-street Receiving Hospital. She was riding with Jerry West, 31, of 3045 Mallow street, when the crash occurred. A truck driven by Leonard Reed, 33, of 1914 West Slauson avenue. Neither Reed nor West was hurt.

CHILD RUN DOWN
Eileen Shashillon, 6, of 2545 Whittier Boulevard, ran in front of a truck driven by Felix Mendeliv of 3210 Oregon street, as he was backing it into an alley near the child's home. She was taken to Georgia-street Receiving Hospital with a fractured skull and concussion of the brain.

RACUS TORRES, 10, of 1649 McGarry street, darted in front of an automobile at Washington and McGarry streets and suffered a possible skull fracture. The driver of the car, Francisco Navarro, of 1926 Stanton avenue, was not held.

MAN HIT BY TRAIN
Herman Johnson, 55, of 413-1-4 East Thirtieth street, suffered a basal fracture of the skull, surgery at Georgia-street Receiving Hospital, when the car he was driving collided with one driven by Lewis Altman of 5435 West Fourth street. The crash occurred at Twenty-third and Trinity streets. Altman was released.

FERNEX WILL LECTURE
AT ART CLUB'S FORUM
The California Art Club forum this evening will have as its host P. K. Fernex, director of the Los Angeles Academy of Modern Art. Mr. Fernex will talk about "What Is Wrong with Art?" The club's forum is open and free. The discussion opens at 8 p.m. in the Barnsdall Park clubhouse.

BENEFIT BALL PLANNED
To provide funds to equip Boy Scouts for the junior world series ball games, Marine Corps Post No. 321 of the American Legion will give a benefit ball on April 2 at Bolcom's Grand-avenue ballroom, according to an announcement just made.

EARLY FILING URGED
Failure of deputy assessors to reach taxpayers does not relieve the latter from the responsibility of filing returns on all property acquired prior to the 1st inst. It was pointed out. Failure to file such a return, if it is not obtained by deputy, will result in the assessment being made an official data available to the assessor's office. Hopkins urges taxpayers to file their property lists at an early date, so that if there is any argument over the assessments there will be plenty of time in which to reach a settlement.

The Lancer

by Harry Carr

NACO—Certainly was gloomy at our funny little desert hotel tonight.

With the exception of a couple of cow punchers and a distinguished Mexican military gentleman who is waiting to see which side wins before he joins either, the boarders are all connected with the gambling business.

There are four roulette dealers, one black jack dealer, two bar-tenders and the avant who presided at the crap table. All except two roulette dealers are married. When the Mexicans burned the roulette wheels they found themselves all out of jobs.

SOCIAL ETIQUETTE
Roulette social circles have an etiquette of their own. The ladies of the house are in good society form if they get dressed up in the evening and go to pay a short call on their husbands at their place of business. They wear the most alarmingly beautiful footwear I have ever seen, with straps around the ankles like Italian banditti.

Each of them patronizes the others on her husband's superior standing in the profession.

MODELS OF PROPRIETY
I notice that they take great pride in deferring to the superior judgment of their husbands in matters of propriety.

"My husband said he would rather I did not go to the place tonight," says Mrs. Twenty-One-the-Bed.

"Well," says Mrs. Seven-Comp-Eleven, feeling that she has somehow been snubbed, "I am going over just to hear the prize fight on the radio. And (cheerfully) I will probably be sent home. My husband is very particular what I do."

TOPICS OF CONVERSATION
At times when we are sitting around the home circle the conversation grows very scientific. Last night there was a long discussion as to the advantages of playing the O or the Double O on a roulette wheel. It was finally settled by Curly. When he speaks it is as though Mussolini had issued a ukase. You see, Curly takes a Wall Street paper and made \$8000 on the stock exchange.

CABMAN'S HOLIDAY
For some days the games were closed before the Mexicans burned the tables. During this period, the dealers and their wives had a cabman's holiday. They played black jack on the hotel table with a 5-cent limit—until morning.

THE PERCENTAGE GIRLS
There are two "percentage girls" also living here. They invite themselves to drink at the bars with generous looking men and get a percentage from the house.

HORTENSE'S SECRET
Hortense, who has two lovely children she is putting through school, let me in on a great secret. She says the real way to make money, for a "percentage girl," is to call for a drink with a high-sounding name—like "Crema de Viejito de Mexico." The "bar-keep" pours out a small wine glass full of lemonade, with just a drop or two of claret to color it. They charge the cash customer 10 cents of which she gets 15 per cent. On account of the name the victim

Papers Sign Two-Year
Motion Picture Contract

Recently Acquired
M.G.M. Not Stated

As the most revo-

lutionary changes in motion-picture

industry, the Fox Film

company yesterday announced

the making

of a new motion picture

company, following a

series of negotiations

with the Motion Picture

Producers Association

and other executives

of the industry, who

have agreed to a

two-year contract

for the production of

motion pictures.

The new company

will be known as the

Fox Film Corporation

and will have a

capital of \$10,000,000.

The new company

will be known as the

JULIAN STOCK TRANSFER NEAR

New Stock to be Issued
After April 15

Pulling Out of Financial
Mire, Officials Say

Election of New Officials
Scheduled Soon

Holders of Julian Petroleum
Corporation shares will receive stock

in the reorganized company shortly

after April 15, it was announced

yesterday by officials of the company.

Approximately 30,000 certificates

representing an amount equal to the

stockholders' number of shares in the

original company will be issued

immediately after the old Julian

organization officially becomes the

Sunset Petroleum Oil Company.

Present plans call for the complete

transfer of Julian assets to the new

company on April 15, and which will

terminate the efforts of Joseph Scott

and H. L. Carnahan, receivers who

have brought the company from the

chaotic state it was thrown into by

stock manipulations nearly two years

ago to an organized and fairly well on

the road to a profitable corporation, officials

of the company said.

RIVALS PLAN JOINT FLIGHT

Will Go After Refueling Record

Left to Right, Mrs. Louise McPhetridge Thaden and Bobbie Trout

OBIE TROUT of Los Angeles and Mrs. Louise McPhetridge Thaden of San Francisco, aviatrixes who have competed during the past two months for the women's air endurance record, have decided to call off their mutual challenges and co-operate in setting a new record.

The California women flyers are planning to take off as copilots as soon as they can obtain a large cabin plane equipped for taking on fuel and food in mid-air.

Although Mrs. Trout said that the flight may take place either above Los Angeles or San Francisco, it was reported from persons who are adding the two women flyers with their plans that the take-off will be from the Grand Central Air Terminal in Glendale.

We still are up in the air, so to speak, as far as the details of our plans are concerned," Mrs. Trout said last night.

The flight, however, is on, and the ship we want will be a single-engine cabin job. There's no use of first myself and then Mrs. Thaden making separate flights. We'll go up together, take on supplies in the air and fly until our motor lets us down.

Police Sergeant Slain in Own Home by "Buddy" After Party

TESTIMONY DUE IN GRIMES CASE

Webster May Go on Stand at Trial Today

Events After Jacobson's Arrest to be Told

Many Witnesses Called on "Frame-Up" Charges

Trial of Mrs. Callie Grimes, five police officers and others charged with conspiracy to "frame" the arrest of Councilman Jacobson in a Beagle-street morals raid fifteen months ago will be resumed today at 10 a. m. before Superior Judge Wood.

With the preliminaries of selecting a jury of nine men and three women and presentation of the prosecution opening statement disposed of, N. Rodney Webster, former police commissioner, will be called as the first witness, Dep. Dist. Atty. Dennis, in charge of the prosecution, announced.

According to Dennis's opening statement to the jury on last Friday, Webster is expected to testify to events on the night of August 5, 1937, when Jacobson was arrested and brought to the Webster home by the arresting officers.

On returning home that night, Dennis said in the statement, Webster saw Jacobson and a crowd of officers in automobiles in front of his home. They wanted to come into his home to discuss the arrest, the prosecutor asserted, but Webster refused to admit them. He joined the party and went to the police intelligence bureau.

When the Councilman was arrested, he was wanted to see someone in authority above the officers who found him with Mrs. Grimes in the Beagle-street cottage, so they took him to

AGE LIMIT IN DEATH AWARD

Jury Scales Down Damages Asked by Wife of Car Victim

The older an accident victim the less his heirs can recover from those responsible for his death, was pointed out by Superior Judge Sproul to a jury considering the damage suit of Mrs. Beale Roberts against the Los Angeles Railway.

Mrs. Roberts was suing \$10,000 for the death of her husband, killed by a street car.

Judge Sproul instructed the jury to fix the amount of their verdict by what they thought the deceased might earn if he were to live out his expectancy of life. The jury said \$3000.

Webster, who then was police commissioner, will center about conversations he had with the officers and Jacobson in front of his home and at subsequent conferences in the intelligence bureau, Dennis said.

The prosecution has not decided which witness will follow Webster to the stand. Approximately fifty men and women have been subpoenaed by the state, and the order of their appearance will be definitely arranged today.

Jacobson, who has been in constant attendance in Judge Wood's court during the three days of jury selection, will go on the witness stand early in the proceedings, Dennis said, to lay the groundwork for the "frame-up" the state asserts it will prove.

The defendants are Captains of Detectives Wallis and Williams, Detective Cox, vice-squad officer and

TRIVIAL CRUELTY RULED OUT AS DIVORCE CAUSE

A husband who merely shouts "cat" at his wife or a wife calling her lord and master an "in-grate and a bum" are sets of cruelty but too trivial on which to obtain a divorce, in the opinion of Superior Judge Mahon.

This was revealed when attorneys in a contested divorce case assigned to trial before Judge Mahon, informed the court they had stipulated not to press the charges of habitual drunkenness and infidelity lodged against the wife in the complaint "because of their desire to protect the name of the couple's child." They wished, they said, to proceed on testimony merely relating to acts of cruelty.

"You have the charges of habitual intemperance and infidelity in your complaint. They are serious charges, and if proven are grounds for a divorce," Judge Mahon said. "I warn you, however, before we start, I do not grant divorces on every little act of cruelty."

"Some people merely say 'cat' at each other and then come into court and get a divorce," the judge continued. "I do not think such a trivial thing is ground for a divorce. Parents should take a good deal from each other because of their children. They should try to be as nice to each other after the wedding as they were a few months before the ceremony was performed."

The hearing proceeded and the attorneys were evidently successful in proving to the court that the acts of the wife in drinking and associating with other men caused the husband to shout "cat" and "in-grate and a bum" and that the husband's shouting "cat" and "in-grate and a bum" caused the wife to shout "cat" and "in-grate and a bum."

Yesterday and Saturday, the jury, which is held in custody, was granted such recreation as the members of the panel desired. During the tedious selection of the jury the crowds of curious spectators seeking entrance to the courtroom were small. The number was expected to increase this week with the start of testimony and wooden barriers have been erected to assist Deputy Sheriffs Co-

SHOOTING VICTIM AND ACCUSED MAN

E. C. Baab Shot Twice as He Tries to Halt Assault

War Comrade He Befriended Confesses Fatal Deed

Drunkenness Gets Blame for Attack on Benefactor

Shot through the heart twice, Police Sergeant E. C. Baab, 37 years of age, was killed early yesterday as he stood with his wife in the kitchen of their home at 700 Lucile avenue thanking her for gifts received on his birthday and their thirtieth wedding anniversary. The death shots were fired by George A. Arnold, 28 years of age, a roomer in Baab's home for the past seven years and a close acquaintance for more than ten years.

The shooting took place following a wedding anniversary party at the Baab home shortly after all of the guests except Motorcycle Officer E. H. Mathes had left.

According to Detective Hamilton, Curtis Condit and Corbin, Baab and his wife had stepped to the kitchen after the departure of the guests and Officer Mathes and Arnold were sitting in the front room.

Revolver Seized
The Baabs had been out of the room but a few minutes. Mathes told police, when Arnold leaped to his feet, ran into the dining-room, pulled Baab's 45-caliber revolver from a drawer and entered the kitchen, firing as he walked toward Baab.

The first shot missed Baab, and while Officer Mathes was running toward Arnold, Baab and Arnold came to grips. Two more shots were fired, both entering Baab's heart. Baab fell and Officer Mathes disarmed Arnold and handcuffed him.

Arnold, who had been drinking, according to police, repeated over and over "I don't know why I shot him." Later he told detectives that he and Baab had had several quarrels over trivial matters, and that at one time Baab held a revolver against his back and made him dance. In another instance, Arnold asserted, he and Baab had had a fist fight.

WHAT ARNOLD SAYS
In a statement to Detective Condit and Corbin, Arnold said that he heard Baab state to his wife as they were entering the kitchen that "I am going to bump Arnold" and that at that time he ran for the gun and fired the death shots.

Officer Baab was appointed to the Los Angeles department during 1922 and served at Central and Hollywood stations until he received his emergency appointment in October, 1928, when he was transferred to Georgia-street division, where he was placed in charge of the vice squad. He was one of the most popular officers in the police department.

INDUSTRIES IMPRESSIVE TO VISITOR

North Dakota Editor Says Stability of Southland Has Opened His Eyes

North Dakotans who visit California at this time of the year glorify in the wonderful climate, but the industrial development and production of the state, as pointed out by H. D. Paulson, editor of the Fargo Forum, oldest and largest daily newspaper of the North State, is not so much a matter of good weather, but good business conditions and striking industrial development here, he said yesterday.

The editor, staying at the Alexandria with Mrs. Paulson, declared that this, his first visit to the west coast, has been a decided eye-opener.

"I am tremendously impressed with the evidence of industrial development and production of every description," he said. "I have been hearing about California for years, but it is the first time I have been able to convince me of your great wealth, your stable business conditions and splendid market facilities."

"Yes, I left the folks at home in good shape, chucking with good nature over the migration of Herbert Hoover and generally excellent crops last year. You know, North Dakota always has been known as the leading state in production of spring wheat, but during the last four or five years there has been a marked trend toward diversified farming. The result has been that we have made material progress toward more stable farming conditions. The result has been that we have made material progress toward more stable farming conditions. The result has been that we have made material progress toward more stable farming conditions."

CROSS-OVER DEVICE TO BE GIVEN TRIAL

Railway Men's Invention for Silent Crossings to Get Test at South Gate

Railway officials are regarding with interest the trial installation here within the next few weeks of a new rail crossing aimed to eliminate the noise and shock caused by cars crossing the tracks of an intersecting line. The contrivance is the invention of W. H. Whalen, president of the Southern Railway Crossing Corporation. It is to be tried out at the South Gate crossing of the Southern Pacific and Union Pacific lines.

The principle involved is the shifting of a grooved cylindrical block in such a way as to bring the grooves into alignment with the grooves of the abutting rails in a direction corresponding to that of the passing car or train. Thus it is claimed, a continuous rail is formed.

According to the inventor, the device will not only eliminate noise and shock but will reduce the wear and tear on rolling stock.

Whalen started his railroad career in 1881 with the Chicago and Northwestern Railroad. From 1911 to 1928, when he retired, he was superintendent of the Southern Pacific's Los Angeles division, later serving as special representative of T. H. Williams, assistant general manager of the company.

WOULD-BE MAYORS TO TALK TO CITY CLUB

CANDIDATES ALL TO BE GIVEN CHANCE TO ELECTIONEER; PROGRAM OF WEEK

John R. Quinn, Perry H. Greer, John C. Porter and Charles J. Colton, candidates for Mayor of Los Angeles, will be speakers today at the City Club, following a dinner at 6 p. m. Other candidates for Mayor will be heard at club meetings in the near future, according to announcement by L. E. Moselle, secretary.

At noon today sessions of the harbor section and the State affairs section will be conducted. Fred H. Taft, chairman of the State affairs section, announces that speakers today will include Miss Sue Probst, president of the Business Women's Legislative Council of Southern California, who will discuss bills affecting women in industry.

Frederick Von Schröder, deputy City Attorney, will speak on "Tide-lands and Their Titles" before the county and municipal government section at noon tomorrow. Wednesday at noon Dr. Charles W. Decker will discuss "National Defense as a Peace Measure."

The administration of justice section and the traffic and transportation section will meet Thursday at noon. A community sing will feature the luncheon on Friday and on Saturday at noon L. L. Gallup of the Board of Education will speak on "The City Beautiful."

HEARING OF TAX ADVISER SET TODAY

Hollywood Accountant to Face Charge of Framing Fraudulent Returns

Edward H. Hayden, income-tax adviser of Hollywood and Los Angeles, accused of fraud in connection with the making and filing of income-tax returns, is to be arraigned today before United States District Judge Norcross, sitting for Judge McCormick. The defendant is expected to enter his plea.

The Federal indictment against Hayden charges that he aided in the preparation of asserted fraudulent income-tax returns. In an indictment of eighty-five pages details are given of the returns on incomes for the various persons involved.

Among those whose tax returns are mentioned are Fred Nible, motion-picture director; George J. O'Brien, also a director; Teofil Walsh, a director, and Ramon Navarro, an actor.

Hayden furnished bail of \$6000 and was released pending hearing in court.

Beauty is marred when gums break down

Beauty care may safeguard beauty and youth from such dread diseases as Pyorrhea, Gingivitis and Trench Mouth—diseases that attack under-protected, under-exercised gums—diseases that only expert dental care can thwart when once contracted.

So avail yourself of the skill of modern dentistry. Brush teeth and gums every morning and night, with the dentifrice designed to help keep gums firm and sound, so protecting them from disease. This dentifrice is Forhan's for the Gums.

Nobody's Immune from the attack of dread gum diseases. As a preventive measure, see your dentist at least twice a year and start using Forhan's daily. When you use Forhan's, notice how much better gums look and feel, and the way it cleans teeth and helps to protect them from acids which cause decay will delight you. Get a tube from your druggist—today.

Forhan's for the gums

... of 5 after 40 and thousands younger pay the extravagant price of neglect

PLANS FOR BEACH PIER DISCLOSED

Las Flores Canyon Owner Asks Permit for Fishing and Boating Dock

Plans to construct a private pier for commercial purposes at the mouth of Las Flores Canyon, eight miles west of Santa Monica, have been submitted to the Board of Supervisors for action today in an application for a franchise filed by Olaf C. Olson, owner of the property from which the pier would extend 1000 feet into the ocean.

Resurrection to be Told at Forest Lawn

A pageant portraying the biblical story of the occurrences at Christ's tomb on the morning of Resurrection Day will be a feature of Easter sunrise services to be conducted Sunday at Forest Lawn Memorial Park.

TIMES WANT ADS

NEW TASK FOR RELIGION SHOWN BY DR. TUPPER

Experience and Reality Urged in Present Day Carrying Out of Master's Doctrines

The dominant religious question today has to do not so much with the absolute truth as with its adequateness, its ability to meet the needs of the present day, Dr. Tupper said.

Dr. Tupper, pastor of the Hollywood Baptist Church, declared that the religious question today has to do not so much with the absolute truth as with its adequateness, its ability to meet the needs of the present day.

An educated man is one who knows how to use his mind, Dr. Tupper said, and can name three of his duties.

Other duties are to be a good citizen, to be a good neighbor, and to be a good father, Dr. Tupper said.

What a world! The only way to make it a better place is to make it a more Christian place, Dr. Tupper said.

That which is the greatest beauty in the world is the beauty of a perfect human being, Dr. Tupper said.

Another explanation of the world is that the world is a great laboratory, Dr. Tupper said.

Few things are as plain as the way a "dust" is blown out when the old man is planted.

Americanism: Working in the world is not enough, you must be able to pay the taxes when you break.

Love is the quality that makes a girl seem just as sweet as you discover she is as you know her.

They say dew falls on the face of a man, but there is no dew on the face of a man who is without apparent injury.

A girl and a car are alike. A good paint job makes the car look like a new one, but the lines tell the story.

Nature tries to preserve every thing and keep the balance of every thing for a long time, and every man who is a little thing.

Silent partner: One who is a silent partner in a business, but who is not a partner in the background.

The hinterland is the land where no village contains a beginning. "Ye old."

California reports that in a bad way, but it is not a bad way, it is a way that is a beginning.

The difference between a specialist and an ordinary doctor is that the specialist seems so burdensome, but the ordinary doctor is not.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

Most women would manage a man than a man would manage a woman, Dr. Tupper said.

The beauty doctor is a woman who is a beauty doctor, and she is a beauty doctor, and she is a beauty doctor.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

Most women would manage a man than a man would manage a woman, Dr. Tupper said.

The beauty doctor is a woman who is a beauty doctor, and she is a beauty doctor, and she is a beauty doctor.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

Most women would manage a man than a man would manage a woman, Dr. Tupper said.

The beauty doctor is a woman who is a beauty doctor, and she is a beauty doctor, and she is a beauty doctor.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

Most women would manage a man than a man would manage a woman, Dr. Tupper said.

The beauty doctor is a woman who is a beauty doctor, and she is a beauty doctor, and she is a beauty doctor.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

Most women would manage a man than a man would manage a woman, Dr. Tupper said.

The beauty doctor is a woman who is a beauty doctor, and she is a beauty doctor, and she is a beauty doctor.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

Most women would manage a man than a man would manage a woman, Dr. Tupper said.

The beauty doctor is a woman who is a beauty doctor, and she is a beauty doctor, and she is a beauty doctor.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

Most women would manage a man than a man would manage a woman, Dr. Tupper said.

The beauty doctor is a woman who is a beauty doctor, and she is a beauty doctor, and she is a beauty doctor.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

Most women would manage a man than a man would manage a woman, Dr. Tupper said.

The beauty doctor is a woman who is a beauty doctor, and she is a beauty doctor, and she is a beauty doctor.

Correct this sentence: "I am a specialist in the treatment of the disease of the heart, and I am a specialist in the treatment of the disease of the heart."

CLUB TROPHY WON BY GIRLS

In competition with five other colleges of Southern California, the girls' glee club of the University of California at Los Angeles has won the James Warren trophy, a handsome silver cup, which becomes the permanent property of the university. In a program at Pomona College the U.C.L.A. girls competed with Redlands University, Occidental College, San Diego State Teachers' College, California Christian College and Pomona College. The girls were graded on tone, tempo, enunciation and dynamics, the decision being made by a judge's board composed of John Smallman, Arthur Alexander and Roy B. Rhodes. Although forty girls comprise the club, only thirty were allowed to sing in the competition. They are directed by Gladys Jolley Roser.

power of the Bible lies in the fact that it gives expression to the most powerful emotions and aspirations that have ever been known to man," declared Dr. Bruce Brown in his sermon yesterday at South Park Christian Church.

"Man is by nature a praying creature and never can educate himself entirely away from supplications to the Unknown," said Dr. Brown. "When the sea of life is calm, the sea of prayer is calm, and the sea of prayer is calm, the sea of life is calm."

"According to Robert A. Millikan, the great majority of the greatest scientists in America today hold firmly to fundamental religious convictions. I am safe in saying that there is not an outstanding scientist in the world today who is not a religious man."

"Matter" Discussed by Christian Scientists

Paul's words to the Romans: "To be carnally minded is death; but to be spiritually minded is life and peace," served as the Golden Text in the Christian Science lesson-sermon on "Matter," yesterday at all branches of the First Church of Christ, Scientist, in Boston.

The lesson-sermon consisted of various selections from the Bible and from "Science and Health with Key to the Scriptures," by Mary Baker Eddy. These citations were read to the congregations and included the specific teaching of Christ Jesus from John vi: "It is the spirit that quickeneth; the flesh profiteth nothing; the words that I speak unto you, they are spirit, and they are life."

"Entirely separate from the belief and dream of material living, is the life divine, revealing spiritual understanding and the consciousness of man's dominion over the whole earth."

PRIESTCRAFT PASSING, SAYS REV. T. C. ABEL

A lecture on "The Source of Human Power" was given at Hollywood Chamber of Commerce Building yesterday by Rev. T. C. Abel, leader of the Hollywood Humanist Society. Mr. Abel said in part:

"Man craves power. Magic, sorcery, priestcraft have prevailed because man thought that through them he could obtain power, and for the power to control the forces of nature in his own interests man has sacrificed his dearest possessions. But magic, sorcery, priestcraft have passed, and even prayer is no longer practiced in the hope of influencing natural laws. Man is learning that there is no short-cut to power or success. The only avenue to a life of power through the cultivation of the intellect. Disease, poverty, crime and all other problems of humanity can be solved only when man has become intelligent enough to discover their natural causes and reasonable enough to eradicate them."

CHILDREN HEAR OF "GREAT PHYSICIAN"

A sermon to children on "The Great Physician" was preached yesterday by Dr. H. C. Culbertson at Plymouth Congregational Church. Dr. Culbertson said in part:

"The greatest physician of our Heavenly Father, breathed His presence into Jesus of Nazareth, in order to cure the terrible disease of selfishness, hatred and false-ness, which is racking our world, breaking hearts and ruining lives. Evil men slew Jesus because they were opposed to His life of unselfish love, and because He was showing the way to a heavenly home instead of a earthly home. Just as in our hospitals blood is transfused from a healthy strong man into the veins of a weak patient, so the life of Jesus is transfused into our lives when we accept Him, and we commence to live anew in the glory and joy of unselfish, sacrificial service, loving everybody in the name of Christ, and according the radiance of the heavenly light within us every-where we go."

PASTOR EMPHASIZES CO-OPERATIVE VALUE

Dr. E. Thomas, P.A.C., lectured to Rodeziana's Music Arts Hall yesterday on "Co-operative Thought." He spoke in part as follows:

"Thought has a high rate of vibration which is capable of dissolving or changing all lower rates. Every solid in the universe, being only a rate of vibration, is ready to become fluid to any higher vibration. Your body is already 84 per cent fluid and is ready to become a little ocean of harmony, if properly acted upon by your thought vibrations. Your entire environment, your friends, your every surrounding is your magnetism and ever changing to the poles of your thought. All space is filled with living realities. The cross-vibrations surrounding us continually affect us for evil and are all the more dangerous because invisible, subtle, unseen and uncomprehended. Occultists know and physicians will tell you that bodily disease consists in cross-vibrations and that health consists in harmonious vibrations in our surroundings."

PAYING MOVE URGED

The Board of Public Works has transmitted to the City Council a communication from City Engineer Shaw requesting that he be instructed to institute proceedings under the 1911 Act for the construction of curbs, sidewalks and pavement on La Brea avenue between Wilshire Boulevard and Country Club Drive, the pavement to be seventy feet wide. The Council has referred the matter to its Public Works Committee.

Paint your house into the landscape

Yucca red trimmed with cool green and a tile roof make this home as much a part of the landscape as are the encroaching cactus and the distant purple hills.

And you can make your home, by the use of paint, part of the colorful beauty of its surroundings, be they city streets, mountains, sea or old fashioned garden. The B-H Exterior Color Harmony Selector will show you how.

Made up of shades of B-H brand Prepared Paints and Stucco Coatings, the Selector automatically shows harmonious color schemes for complete exterior. These paints are made of the best materials tempered to meet Western climates and mixed ready to use.

Unless it is a small job which you plan to do yourself, it is advisable to engage a master painter. He has both the skill and equipment to give expert service and the Selector will specify the colors to be used, insuring results anticipated.

Though you may not be ready to paint, the Selector and its companion booklet, "Harmonious Exterior" are of immense value and interest to you. They are real guides to house painting—full of practical suggestions.

Use the coupon below and be sure to give name of your paint dealer.

"This house—'color-chord'—will be shown in the color section of this paper April 14."

THE B-H EXTERIOR HARMONY SELECTOR

Over the disc illustrated revolves a mask with slots through which appear correct and striking exterior color combinations.

SOCIETY

The presence in Paris of the American delegates to the reparations conference is resulting in numerous formal and informal receptions and dinners, advancing the Paris social season by several weeks.

The most recent of these dinners was given last week for Thomas W. Lamont. It was hoped that Mrs. Lamont could be present but her continued illness prevented her from doing so. The hosts were Mr. and Mrs. Lendall Pitts. Mr. Pitts has long been a resident of Paris where he has been particularly identified with the painters of the Montmartre region, while he has sought much of his inspiration and many of his landscapes in Brittany. His wife, who was Mrs. McCord, also is well-known in the artists' quarter of the French capital.

The dinner last week was given in a private salon of the Union Interalliee, the other guests including the American Consul-General and Mrs. Austin, Gen. William W. Hart, military attaché of the American Embassy, and Mrs. Hart; Dean and Mrs. Frederick W. Buchanan, Maj. and Mrs. Walter V. Cotehetti, Mr. and Mrs. William Biglow, Albert N. Connell, Jr., and Mrs. Connell, mostly of Indianapolis and Philadelphia; Miss Marion Greenough, Mrs. Arthur Maxwell Parker and Stuart Knott of Buffalo, N. Y.

Among diners at the Ritz Hotel last week were Walter Burns, who is a brother of the "Vocalist" Harcourt and a cousin of J. P. Morgan, and Thomas W. Lamont, who entertained Mr. Burns and Lord and Lady Astor who have just arrived from St. Moritz and who will be joined here by their daughter, Hon. Phyllis Astor, Signor Bruno Bolletta of the Italian delegation for the reparations conference, and Signora Doloretta entertained a party of eight.

Some few of the reparations delegates dropped in for dancing after dinner. Sir Joshua Stump of the British Commission was there with Sir Charles Adde and Mr. and Mrs. Stuart Crocker of California joined the dancers for coffee.

Thomas Nelson Perkins, who was named as an alternate American delegate to the reparations conference and who was detained in America on account of the illness of his son, arrived in Paris last week and is at the Ritz with the other delegates.

The conference also has attracted Charles S. Dewey of Chicago, who though not attached to the group now holding the sessions here is an outstanding student of economic problems and the financial adviser of the Polish government. Mr. and Mrs. Dewey are being much entertained.

Americans in Paris are interested in the forthcoming wedding of Miss Wynne Toulere of Paris to Donald F. Wilson of Pasadena, Cal., the wedding to take place this week at the residence of the First Ambassador, Miss Toulere comes from a well-known family in Paris. Her late father was a noted architect. Mr. Wilson is a son of Mr. and Mrs. Frederick M. Wilson. His father is director of a number of colleges. He is a member of J. L. Oakley, president of the California State Bank in San Bernardino. Mr. Wilson has been in Paris for the past six months. He and his bride will pass their honeymoon touring France and will sail for America on the 29th inst., to make their home in Pasadena.

Mrs. Edward J. Orton (Eleanor Moore) has returned to Paris from a three months' visit to her parents, Mr. and Mrs. William Armstrong Moore, in Los Angeles.

C. Allan Terney has returned to Paris from Montreux and is stopping at the Hotel George.

Mrs. Sigmond Stern has returned to Paris from Cannes, France, after a prolonged visit to the Riviera. She has an apartment at the Hotel Plaza-Athene.

Miss Helen Holen, daughter of Mr. and Mrs. H. H. Nelson of the Boulevard Eximiane, Paris, returned to the French capital last week after a three weeks' visit to Algiers, Biskra and Tunis with her friend, Miss Katherine Priest of Hollywood. Miss Priest accompanied her to Marseilles, France, and has gone on to Spain, where she will pass some time in Barcelona and in Madrid.

Mrs. May Jackson of Santa Barbara has arrived in Rome and is staying at the Grand Hotel.

Mr. and Mrs. J. W. McKenna of Beverly Hills are guests of Hotel Continental, Paris, arriving from Bremen, Germany.

Mrs. Hugh McFarland with the Misses Virginia and Louise, all from Pasadena are planning for the season at Hotel Metropole in Monte Carlo.

J. J. Brown, who has been traveling in Germany, was a recent visitor to Berlin, where he registered at the Hotel Bristol. A. H. Hitching of San Diego has been stopping at the same hotel.

Mr. and Mrs. Clifford de Mar have arrived in Paris and are staying at the Hotel Maurice. They are passing the winter and spring on the Continent.

Miss Florence Friedell is at Hotel Maurice during her journey in Paris. She has been traveling on the continent with her mother, Mrs. Joseph Friedell, and will go on again soon by motor car trip through Spain and the French Riviera.

Mrs. Henry Lamb, now residing in Paris in the avenue Charles Fiquet, is leaving for a tour of Italy and Sicily. She is to be accompanied by her mother, Mrs. Katherine R. Lumanen, and her nephew, Carlyle Butler Lumanen.

W. S. Loh has been stopping at Hotel de Russie in Rome. H. A. Kohl has been passing several days in Berlin as a guest at Hotel Bristol.

Henry K. Patterson also is stopping at Hotel Bristol in Berlin. Philip L. Kuhl, Earl R. Beebe and Paul M. Brink have been stopping at Hotel Bristol during a Berlin visit.

M. G. Schneider has been stopping at Hotel Bristol in Berlin. One hundred and fifty new female police officials are to be employed by the Prussian police force in Germany. They range all the way from expert criminologists to police constables.

HEALTH AND DIET ADVICE

By Dr. Frank McCord

Dr. McCord will answer personal questions on health and diet, addressed to him, care of the Los Angeles Times. Business stamped, addressed envelopes for reply.

Why Be Afraid?

Most people do not realize how much of their lives is controlled through the fears they have developed. Most of these fears are usually rooted through habits of thinking, developed from the influence of environment. As far as we can ascertain at the present, the new-born baby has only two inherited fears, one, a fear of loud noises, and the other a fear of falling. All other fears are what we know as "conditioned" fears, and these make up 99 out of 100 of our fears. It is wise to use judgment in deciding all of the actions of our lives, but such caution should never be allowed to develop into a fear.

I assume that most of my readers follow this daily column because they wish to have health more abundantly. Most of you realize that fear of disease is really an important factor which also causes disease and yet many are surprised to know that there are even more important fears which affect health and leave their unmistakable mark in physical disorders.

It has been found that fear of failure is the greatest of them, and that at least 75 per cent of those examined psychologically have this failure fear. Of course, this may refer to failure in health, or failure in business, finance, love, success, etc.

Other important fears are fear of the dark, fear of drowning, fear of animals, etc. Some people fear they will be misunderstood, while others fear they will be found out—like the man who said he didn't mind how many lies they told about him as long as they didn't tell the truth.

Just how the baby is affected by distressing emotions, such as fear, is still somewhat of a mystery, but it appears that with our newer discoveries about the ductless glands we are finally on the right track in clearing up this mystery.

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 1:30 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cooking in the lecture room of the Southwest Building, 130 South Broadway.

HOT CROSS BUNS
Dissolve one cake of yeast in one-half a cupful of lukewarm water. Add two cupfuls of scalded and cooled milk, and three cupfuls of flour, beat until smooth and set in a warm place to rise. When light, add one-half a cupful of sugar, one teaspoonful of salt, the yolk of one egg, and one-fourth of a cup of melted butter, one cup of seedless raisins, and enough flour to knead the mixture into a soft light dough. When doubled in bulk, turn out on a board, lightly dredged with flour, roll into a sheet and cut into rounds. Place one inch apart in a baking pan, allow to double in size and bake. When baked brush over the surface with the white of an egg, return to the oven to glaze. Remove and pipe confectioner's frosting in the shape of a cross on each bun.

SWEDISH SALMON
One-half a pound of cooked codfish, two tablespoonfuls of butter, two cupfuls of milk, one teaspoonful of salt, one large can of salmon, two tablespoonfuls of flour, one package of pimiento cheese, one half cupful of chopped parsley. Make a white sauce of the butter, flour and milk. When smooth add the pimiento cheese, and stir until dissolved. Drain the salmon, free it from skin and bones, add to the mixture and allow to simmer for five minutes. Place the cooked

codfish on a hot platter, dot with bits of butter, season with salt and paprika, pour the salmon over and sprinkle over the top parsley.

TOMATO BISQUE
Place in a saucepan one tablespoonful of butter, add two tablespoonfuls of flour, and blend well, stir in slowly four cupfuls of milk, and stir and cook until thick. Add two cans of tomato paste, add to it one-half a teaspoonful of soda, a seasoning of salt and pepper, two teaspoonfuls of finely chopped parsley and one-half a teaspoonful of mace. Slowly pour the milk into the tomato mixture, stirring constantly, allow to come just to the boil; serve with croutons.

RICE PUDDING
Place in a double boiler three cupfuls of milk, add two-thirds of a cup of well cooked rice, and cook slowly for one hour; stirring often, add one-third of a cupful of sugar, and one-half cupful of seedless raisins that have been plumped in one-half a cupful of orange juice. Cook for five minutes, add the yolk of two eggs well beaten, cook for two minutes longer, remove from the fire, add one teaspoonful of grated lemon rind, pour into oiled individual molds, set in the ice box to chill. Serve with cream or orange custard sauce.

Mrs. Wyman does not reply to letters, but reads for replies to questions in the department. PRACTICAL RECIPES, published every day, are sent to subscribers (received by A. L. Wyman).

words her mother's lips did not permit themselves to utter. To Ruth they came to mean the inner experience of marriage. Since it is in such associations that her deepest emotions are rooted, it is a psychological impossibility for her to free herself.

Had her parents had the courage to meet their own problems openly, to face facts and to make whatever changes were necessary, whether these had entailed harmony or divorce—Ruth's feelings toward marriage would have been the light of her morbidity and unwholesome position.

Land Locator Will Plead to Fraud Charge

Charged with "switching" the descriptions of entries upon which he was to locate settlers on government lands, Charles A. Severance of Glendale is to be arraigned today before United States District Judge James.

It is charged that Severance obtained fees of \$60 each from numerous persons to locate them on the land and then placed them on tracts they had not selected. He is being held under bond of \$500.

Miss Olive Branch Williams, former secretary to the Governor of the State of Kentucky, is president of an aviation engineering school in New York City.

She read the thoughts behind her mother's eyes and understood the

HOUSEHOLD SUGGESTIONS

Will Stay Put
A strip of oilcloth sewn along the underside of each end of the small rug will prevent its slipping on the hardwood floors and thus cause accidents.

Further Wear
If the silk stocking is perfect except for a darn in the heel above the shoe, put a little tuck in the stocking's heel under the foot and the darn will come below the shoe line.

When There is Illness
A help to the housewife is to have a compartment in her recipe file labeled "Illness" and in this place recipes that would be beneficial to sick people. It is a joy to go to this file when worried about the youngsters and find a recipe that just solves the problem.

Without Grease
Always keep a piece of brown paper close to the stove when frying any article in deep fat. As soon as the food is in the desired brown, lift it from the fat with a perforated spoon and place on the brown paper to drain.

Questions and Answers
Answers to Questions: "I am a boy 14 years of age. Have had asthma ever since I was 3 months old. Do you think it will ever run into tuberculosis?"
Answer: We do see a few cases of asthma which are complicated with tuberculosis, but it is by no means a rule that asthma runs into tuberculosis. Why not cure up the asthma, develop strong lungs and avoid tuberculosis? Send for some special articles on the cure of asthma, and the development of a strong chest.

Currents
Q: Mrs. K. asks: "May currents be used in place of raisins in your mince?"
A: Yes, especially the sweeter varieties.

Aid in System
Q: Mrs. N. F. P. asks: "What causes a numb, scorched-like feeling on my tongue, my gums and the top of my mouth? If it is acid in the system, kindly tell me if oranges and lemons are counteractants of acid. Also, does acid in the system affect one's eyes so that it makes one feel as though she were going around in circles—dizzy?"
A: The condition often called "acid system" is really due to a reduction of the blood's alkalinity. The use of citrus fruits will help to correct this condition, principally through stimulating the flow of bile, which is an alkali. This may also get rid of the distaste, especially if it is caused by biliousness.

YOUR BABY AND MINE

By MYRTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.

The department offers leaders on washing and feeding the child from 1 week to 1 year, practical care and diet for the nursing mother, constipation, eczema, colic, the new baby, sleeping, walking, teething, thumb sucking, anatomical crabs, bed wetting, training in cleanliness, habits of hygiene, and liver oil, orange juice, lemon, vitamin, refrigerator children, pneumonia, time water, cuticles, styes and boils and cradle cap. Before sending a personal question about one of these subjects, it is better to send a self-addressed stamped envelope for the leader you need. If your particular problem is not covered in the above list, Mrs. Eldred will be glad to give you a personal reply.

Head Bumping and Teasing Comparable to Thumb Sucking
Mrs. T. U. E. writes: "My 3-year-old boy drives me almost frantic. When he goes to bed for his nap or even in the middle of the night, he bumps his head from side to side on the pillow. I have punished him for it and he would cry and when everything was quiet I would hear him doing it again. Why does he do this and what can I do to stop it?"

Answer: Head bumping, teasing the head from side to side, thumb sucking, ear pulling, all of these are early habits which give the child sensory satisfaction. They should be outgrown naturally and unless the child's attention is called to them forcibly by your "frantic" efforts to stop him, will be dropped as he drops other early baby habits. It is

hard for an adult to understand how a child can get any pleasure out of hurting himself but we just have to admit that he must find it pleasurable or he wouldn't continue it. All such habits are best treated by indifference (so that the child doesn't use them to torment the parent) and get attention, and factually interesting him in other occupations of a higher order. Once his interest in new games and playmates and toys is established, he will stop these solitary efforts to amuse himself.

Mrs. E. W.: Your letter left me in a state between blushing and tears. I can't help but feel tremendously gratified at your success and my small part in it. I could have published the letter as you desired if you had only said some perfectly horrid things about me but it was just too nice. I shall have to keep it all to myself. It

helps so much to get a letter and you know how I appreciate it. Mrs. G. R. B. writes: "My little girl is 3½ years of age and has never been very healthy. We had her adenoids removed at 13 months and now she is having a lot of trouble with her tonsils. She is too young for their removal! She complains of her stomach hurting and yet when I prepare food, though she says she is hungry, she will not eat. What do you think is her trouble?"

Answer: A great deal may be away and it doesn't pay to guess. Take the child to the doctor and have a thorough examination. Remove the tonsils if they are really infected, and find out why the child's appetite is so erratic. Much must be regular with no idiosyncrasies between. You should try to prevent her feeling that you consider her appetite unusual. Children easily live up to our expectations, you know.

Cleaned and Mixed
When you use gasoline for cleaning purposes, pour the gasoline down the kitchen sink, followed by boiling water. This process will cut all grease deposits that may have gathered and give a thorough cleaning to the pipes.

W CLUB POET DEFENDS MODERN YOUTH

Bliss Carman Declares That Modern Youth Is Not a Failure
Play Vital Role in the Future of the World

Bliss Carman, poet laureate of the United States, declared today that modern youth is not a failure, but a force to be reckoned with in the future of the world. He made this statement in a speech before the members of the West Los Angeles Club, who were gathered for a discussion of the "Modern Youth" by the poet.

"Youth is playing a more vital role in the world than it has ever before," he said. "It is the future of the world, and it is the duty of the older generation to help it in its development. The modern youth is not a failure, but a force to be reckoned with in the future of the world."

Carman, who is 65 years old, is a well-known poet and author. He has written many books and poems, and is considered one of the leading poets of his time. He is also a member of the National Academy of Arts and Letters.

His speech was well-received by the audience, and he was applauded at the end of his remarks. The discussion of "Modern Youth" will continue tomorrow night.

GROUP HONOR OF BAR

Members of the Order of the Bar are being honored for their services to the community. The group is composed of lawyers who are dedicated to the public good and who are committed to the highest standards of professional conduct.

The honor is being bestowed upon them for their many years of service and for their dedication to the law. The group is a source of pride and honor to the community, and their services are highly valued.

Wins in East

A team of athletes from the West has won several victories in the East. The team is composed of some of the best athletes in the West, and they have been performing exceptionally well in their recent matches.

The team's success has earned them a reputation as one of the best teams in the country. They are expected to continue their winning streak in the coming weeks.

Exhibit

A new exhibit is being held at the local museum. The exhibit is titled "The History of the West" and it features a collection of artifacts and documents that tell the story of the region's development over the years.

The exhibit is well-curated and it provides a comprehensive look at the history of the West. It is a must-see for anyone interested in the region's past.

ON TO HEARING

A hearing is being held on the proposed new highway. The hearing is being held to allow the public to voice their opinions on the project and to provide input to the planning committee.

The hearing is open to the public, and anyone who is interested in the project can attend. The committee will take all comments into consideration when making their final decision.

FLOWER SHOW TO WELCOME SPRING

Suburbs Preparing for Second Annual Trade Exposition

Beauty Amid Blossoms

University of California at Los Angeles co-sponsors spring show, which will feature a wide variety of flowers and plants from around the world.

BOY SCOUT SHOW OPENS

Second Annual Exposition Starts Today With Luncheon Attended by Group of Leaders

The second annual Boy Scout exposition is being held today at the University of California at Los Angeles. The event is being sponsored by the local Boy Scout council and it is expected to draw a large crowd of visitors.

The exposition will feature a variety of displays, including exhibits on the history of the Boy Scouts, on their various activities, and on the importance of the organization in the community. There will also be a number of demonstrations and performances by the scouts.

YARNS ON STATE BREAK HEART OF PRESS AGENT

In some parts of California the big boys chop tobacco in such fearful quantities and with such copiousness as to break up the schools, according to an 1899 copy of the New York Ledger.

The article discusses the impact of the tobacco industry on the education system in certain parts of California. It claims that the large quantities of tobacco being produced are causing social and economic problems that are interfering with the schools.

The article continues to describe the various ways in which the tobacco industry is affecting the community. It mentions the health problems caused by smoking and the economic hardships faced by those who are dependent on the industry.

The author argues that the government should take action to regulate the tobacco industry and to protect the health and well-being of the citizens. He calls for a ban on the sale of tobacco to minors and for stricter controls on the industry's advertising and marketing practices.

The article also discusses the role of the press in reporting on these issues. It criticizes some of the sensationalism and bias that it has seen in the media's coverage of the tobacco industry.

The author calls for a more balanced and objective approach to reporting on these issues, one that takes into account the interests of all parties involved. He believes that the press has a responsibility to inform the public accurately and to hold the industry accountable for its actions.

Kerosene Cache Stirs Suspicion

E. H. Dunlap, manager of an apartment-house at 422 South New Hampshire street, reported to police yesterday that he had found a cache of kerosene in the building.

The police are investigating the discovery, as it may be related to the recent fire in the area. Dunlap said that he found several cans of kerosene hidden in a closet in one of the apartments.

Participants in Racial Warfare Refuse to Talk

Edward Gordon, 35 years of age, who said he lived at the Southern California Commercial Club, and George White, negro, of 781 East Thirty-eighth street, were sent to the prison ward of the 'General Hospital' yesterday charged with suspicion of assault with a deadly weapon.

The police are investigating the incident, which occurred in a public area. Both men are being held in custody and are refusing to talk to the authorities.

RADIO HOURS TO GIVE DIVERSITY

Many Types of Artistry on Tonight's Schedule

Frolics and Drama Vie With Musical Groups

String and Dance Aggregation to Take Part

BY DR. RALPH L. POWER

No matter what type of entertainment you want, it will be on the air some time tonight, providing, of course, you tune in at the correct time and on the right wavelength.

If your particular mood calls for something elevating and sort of high brow, there are the Los Angeles Philharmonic Orchestra program over KFI from 9 until 10:30 p.m. The frequent broadcasts of this splendid organization will always have high spots in local radio annals.

ONE-ACT PLAY

For those who care to take their radio drama on a Monday night, KXN draws the curtain before the studio microphone at 7:30, while the lead, assisted by Roy Rogers, looks like a half-hour of melodrama, with the script by Frank Vanabee's new play, "The Night of the Hunter," for instance, never fails to provide plenty of mirth and frivolity on this frolic time.

ORGAN HOUR, TOO

Those who would like to hear an hour of popular hits, of the old undeniably will find the 10 o'clock hour at KMTZ of special interest. It is labeled, "An Hour of Popular Hits," and originates in San Francisco. The entertainment includes present-day popular hits of theater and cabaret, with orchestra and soloists. Edward Overby, formerly an announcer at KXN, will be heard in the hour.

NEW RADIO AD CODE FORMULATED

CHICAGO, March 24 (AP)—A code of ethics, handling improper, false and misleading advertising, has been approved by the Chicago Broadcasters' Association. A committee of the association, headed by Walter Dill Scott, is working on the code, which will be presented to the National Broadcasters' Association at its convention here tomorrow. They will urge the national group to approve a code of ethics.

RADIO HOUR

From programs submitted by stations:

KFI—Health exercises at 6:00.
KFI—Louis Armstrong, vocal and piano.
KFI—Dr. Philip Lovell at 7:30. Exercise.
KFI—News at 7:30 and 7:45 o'clock.
KFI—Dobson's broadcast radio.
KFI—Organ recital.
KFI—Prayer: Photograph records.
KFI—Talks and music.
KFI—A two-way illuminated tunnel one and one-half miles long—the longest suburban highway tunnel in the United States; six "galleries" in the side of the tunnel, at which one may stop in an automobile and look out on the giant and colorful formations of Zion National Park, from the heights of several hundred feet up the face of a perpendicular cliff; six "switch-backs" three and one-half miles of road to cover a distance of less than a mile air line, and all without difficult driving at any point, are features of what the Federal and State engineers have accomplished on the road.

OLD-TIMERS TO MEET

Veteran Employees of Railway to Have Reunion in Salt Lake City

E. A. Hamilton, director of courtesy of the Union Pacific, is in Los Angeles to arrange for the Southern California delegation to the Old-Timers Club convention at Salt Lake City.

DR. CITRON WILL ENTER PLEA TODAY

Physician Now on Bail Following Indictment in Alma Rubens Case

Dr. J. Jesse Citron, Beverly Hills physician, accused in a Federal grand jury indictment with violating the Harrison Narcotic Act in connection with the giving of many prescriptions for drugs to Miss Alma Rubens, is expected to appear today before United States District Judge James for arraignment and entry of plea.

LAW CATER TO CAFE WAITRESS

Court Measures Damage to Miss Verger at So Much For Running Fowl

Because a table in the restaurant of Yuen Wong and Hing Wong collapsed and fell on the foot of Miss Bobbie Verger, a waitress, she sued the proprietors of the restaurant for heavy damages.

Superior Judge McComb awarded Miss Verger \$117.50 for her injuries when the Chinese defendants defaulted, and now all Miss Verger has to do is to collect her judgment.

THRONED

Hundreds Turned In at Hollywood Library for Concert and Display

Palm-Sunday crowds more than 1000 attended the exhibition of the Hollywood Library for the sacred concert at the main branch of the library in the course of the day. Hundreds were turned in for the library for the week, during which the library is open every day from 10 a. m. to 6 p. m.

Main gallery and lower level showed pictures of the subjects and included, among others, and statues, many of the stained glass windows, and engravings, sketches, and a collection of rare crucifixes.

The sacred concert was given by the St. Thomas's Church choir; the last of the series, "The Crucifixion," the playing of the "Missa," by the composer, and the singing of the "Missa," by the choir, and the playing of the "Missa," by the choir, and the playing of the "Missa," by the choir.

The exhibition is given by the St. Thomas's Church choir; the last of the series, "The Crucifixion," the playing of the "Missa," by the composer, and the singing of the "Missa," by the choir, and the playing of the "Missa," by the choir.

Knifer's Slaying
Free by Police on Self-Defense

For wounding a knife in the arm of a woman, a man was released by the police on the ground of self-defense. The man, who was a resident of the city, was charged with the crime of wounding a woman in the arm of a woman, a man was released by the police on the ground of self-defense.

Cauteille Bu
Line Allowed
New Schedule

Permit has been given to the Cauteille Bu line to run on a new schedule. The line, which was previously run on a different schedule, is now allowed to run on a new schedule.

New Officers
Installed by Bnai B'rith

Officers of the Bnai B'rith were installed by the Bnai B'rith. The officers, who were elected by the members of the Bnai B'rith, were installed by the Bnai B'rith.
